

Subject Description Form

Subject Code	AF4110
Subject Title	Strategic Business Reporting
Credit Value	3
Level	4
Normal Duration	1-semester
Pre-requisite / Co-requisite/ Exclusion	Pre-requisite: Advanced Financial Accounting (AF4106)
Objectives	This subject aims to develop students' ability to discuss, apply and evaluate the concepts, principles and practices that underpin the preparation and interpretation of corporate reports in various contexts including the ethical assessment of managements' stewardship and the information needs of the primary users of the financial statements.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - Apply fundamental ethical and professional principles to ethical dilemmas and discuss the consequences of unethical behaviour - Evaluate the appropriateness of the financial reporting framework and critically discuss changes in accounting regulation - Apply professional judgement in the reporting of the financial performance of a range of entities: single entities, groups, public sector entities and not-for profit entities - Prepare the financial statements of groups of entities - Interpret financial and non-financial information for different stakeholders - Communicate the impact of changes and potential changes in accounting regulation on financial reporting - Demonstrate employability and technology skills.
Subject Synopsis/ Indicative Syllabus	Fundamental ethical and professional principles - Professional and ethical behaviour in corporate reporting The financial reporting framework - The applications, strengths and weaknesses of the accounting framework Reporting the financial performance of a range of entities – Revenue, Non-current assets, Financial instruments, Leases, Employee benefits, Income taxes, Provisions, contingencies and events after the reporting period, Share-based payment, Fair Value Measurement, Other reporting issues Financial statements of groups of entities - Group accounting including statements of cash flows, Associates and joint arrangements, Foreign transactions and entities Interpret financial and non-financial information for different stakeholders - Analysis and interpretation of financial and non-financial information and measurement of performance The impact of changes and potential changes in accounting regulation - Discussion of issues in financial reporting Employability and technology skills - Use computer technology to efficiently access and manipulate relevant information. Work on relevant response options, using available functions and technology, as would be required in the workplace. Navigate windows and computer screens to create and amend responses to exam requirements,

	using the appropriate tools. Present data and information effectively, using the appropriate tools.								
Teaching/Learning Methodology	This subject uses a mixed mode of teaching with two-hour lectures and one-hour tutorials. Lectures will introduce perspectives, concepts and techniques which students will be required to apply financial theories and prepare group accounts. Tutorials will initiate students for ideas, concepts and techniques of the topics.								
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	a	b	c	d	e	f	g
	Continuous Assessment	50%							
	1. Quiz	10%	√	√	√				
	2. Test	30%			√	√	√	√	√
	3. Participation	10%	√	√	√	√	√	√	√
	Final Examination	50%	√	√	√	√	√	√	√
	Total	100 %							
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:								
	Participation is a formative assessment used throughout the learning process to provide ongoing feedback and guide instruction for assessing outcomes (a) to (g).								
	Quiz is a formative assessment used in the beginning of the learning process to provide feedback and guide instruction for assessing outcomes (a) to (c).								
	Test is a summative assessment for developing a comprehensive solution for a complex strategic business reporting case; suitable for evaluating the application of knowledge, problem-solving skills and real-world relevance regarding outcomes (c) to (g); appropriate for assessing the overall achievement and proficiency of the students.								
	Examination: Computer based examination including short essay questions and case studies on advanced and practical strategic business reporting issues; suitable for evaluating a broad range of content, skills and learning outcomes; appropriate to provide a holistic picture of achievement of learning outcomes (a) to (g).								
Student Study Effort Expected	Class contact:								
	▪ Seminars				39 Hrs.
