

Subject Description Form

Subject Code	AF4233
Subject Title	Advanced Hong Kong Taxation
Credit Value	3
Level	4
Normal Duration	1-semester
Pre-requisite / Co-requisite/ Exclusion	Pre-requisite: Hong Kong Tax Framework (AF3210)
Objectives	This subject aims to develop students' ability to apply relevant knowledge and skills and exercise professional judgement in providing relevant information and advice to individuals and businesses on the impact of the major taxes in Hong Kong on financial decisions and situations.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - Apply further knowledge and understanding of the Hong Kong tax system through the study of stamp duty and more advanced topics in salaries tax, profits tax, property tax and personal assessment. - Identify and evaluate the impact of relevant taxes on various situations and courses of action, including the interaction of taxes. - Identify the opportunities and provide advice on minimising and/or deferring tax liabilities using legitimate tax planning measures. - Apply a range of professional skills in preparation for career development in accounting and finance profession. - Demonstrate employability and technology skills.
Subject Synopsis/ Indicative Syllabus	A. Stamp duty and more advanced topics in salaries tax, profits tax, property tax and personal assessment – Taxes/stamp duty exposures for more complicated scenarios/arrangements/remuneration packages, Overseas businesses, Cross-border investments and employments, Merger and acquisition, Intra-group activities, Special industries, and Special tax treatments. B. The impact of relevant taxes on various situations and courses of action, including the interaction of taxes – Taxes/stamp duty consequences for alternative courses of action and finance decisions, Tax advantages and/or disadvantages of alternative courses of action, and Statutory rights of tax authorities and obligations on taxpayers. C. Minimise and/or defer tax liabilities using legitimate tax planning measures – Reliefs and exemptions, Legitimate tax mitigation/planning ideas with numerical analysis and technical justification, Risks of being challenged by tax authorities, and Ethical and professional issues. D. Professional skills – Communication, analysis and evaluation, scepticism and commercial acumen. E. Employability and technology skills - Use computer technology to efficiently

	access and manipulate relevant information work on relevant response options. Using available functions and technology, as required by the workspace. Navigate windows and computer screens to create and amend responses to exam requirements, using the appropriate tools. Present data and information effectively, using the appropriate tools.							
Teaching/Learning Methodology	The three hours of seminar per week will be used flexibly by the lecturer for discussing key concepts and their applications with students and carrying out other learning activities with them. To maximize benefits, students are encouraged to share their views and experiences actively with their lecturers and other classmates.							
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting						
			a	b	c	d	e	
	Continuous Assessment	50%						
	1. Group presentation	10%	√	√	√	√	√	
	2. Class participation	5%	√	√	√	√	√	
	3. Quizzes	10%	√	√	√	√	√	
	4. Individual assignment	25%	√	√	√	√	√	
	Final Examination	50%	√	√	√	√	√	
	Total	100 %						
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Presentation, participation and quizzes are formative assessments used throughout the learning process to provide ongoing feedback and guide instruction for assessing outcomes (a) to (e); presentation and participation is particularly appropriate for evaluating students’ ability to communicate their understanding effectively. Individual assignment is a summative assessment for developing a comprehensive solution for a complex tax case; suitable for evaluating the application of knowledge, problem-solving skills and real-world relevance regarding outcomes (a) to (e); appropriate for assessing the overall achievement and proficiency of the students. Examination: Computer based examination including short essay questions and case studies on advanced and practical tax issues; suitable for evaluating a broad range of content, skills and learning outcomes; appropriate to provide a holistic picture of achievement of learning outcomes (a) to (e).							
Student Study Effort Expected	Class contact:							
	▪ Seminars		39 Hrs.					
	Other student study effort:							
	▪ Self-study		70 Hrs.					
	▪ Group discussion & preparation		26 Hrs.					
	Total student study effort		135 Hrs.
