

Subject Description Form

Subject Code	AF4513
Subject Title	Corporate Social Responsibility
Credit Value	3
Level	4
Normal Duration	1-semester
Pre-requisite / Co-requisite/ Exclusion	None
Objectives	Corporate social responsibility has its foundations in the students' knowledge of a diverse range of business functions and sectors. Whatever the specific business setting (accountancy, finance, logistics, marketing or management) the examination of corporate interaction with stakeholders and the notions of social responsibility and ethical behaviour are a matter of concern. This subject enables students to identify and respond appropriately to ethical issues as they arise generally in the business setting and in application of the latest technologies under different business contexts.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - Understand what is meant by “corporate social responsibility” and appreciate its development. (BBA outcome 11) - Analyse “ethical issues” within the framework of corporate social responsibility. (BBA outcome 3 & 11) - Identify and respond appropriately to ethical issues as they arise generally and in the business setting, including the ethical implications of advanced technologies in business. (BBA outcome 3, 4, 7 & 11) - Appreciate that ethical issues may need different approaches in differing value systems. (BBA outcome 3, 4 & 11) - Assess the role of a code of ethics, the essential requirements in drafting such a code and the difficulties of enforcement. (BBA outcome 1, 10 & 11) - Identify the interconnection of this subject with other disciplines. (BBA outcome 10, 11 & 14)
Subject Synopsis/ Indicative Syllabus	The Development of Corporate Social Responsibility The notion of stakeholders; concern for human rights and the environment; ethical and moral reasoning; the relationship between law, ethics and corporate social responsibility; ethical dilemmas typically encountered by corporations. A Framework for Ethical Decision-Making Ethical concepts and theories; deontological and teleological theories; the notions of fairness and justice; Chinese, Asian and Western concepts and theories compared. Corporate / Professional Standards The conflict between economic performance and social responsibility; relations between corporations and key stakeholders; deceptive marketing; employee privacy;

	customer privacy; intellectual property; secrecy / information privacy; equal opportunities; discrimination; “whistle-blowing”; codes of conduct. International Issues The diversity of cultural values; moral relativism v. moral pluralism; cross-cultural dilemmas facing corporations; ethnocentric morality; current developments in corporate social responsibility. Business Ethics and Technology Ethical issues on the use of IT in businesses; ethical issues on big data and data analytics, ethics issues on financial technology.																																																						
Teaching/Learning Methodology	Lectures will introduce ethical issues, theories and the debates concerning the need for corporations to be socially responsible. Tutorials will provide students and opportunity to consider and debate practical examples and to discuss a wide variety of case-studies concerning the various aspects of corporate social responsibility. Continuous assessment will comprise preparation for and contribution to seminar activities, small-group case-study research and presentations, and a quiz.																																																						
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th>e</th><th>f</th></tr><tr><td>1. Mid Term Test</td><td>20%</td><td>√</td><td></td><td>√</td><td></td><td></td><td></td></tr><tr><td>2.
