

Subject Description Form

Subject Code	AF4606
Subject Title	Economic Development of Asia-Pacific Countries
Credit Value	3
Level	4
Normal Duration	1-semester
Pre-requisite / Co-requisite/ Exclusion	Pre-requisite : Introduction to Economics (AF1B02) <i>OR</i> Introduction to Economics (AF1605) <i>OR</i> Engineering Economics (AF3625)
Objectives	This subject enables students to demonstrate an understanding of the process of globalization and regional integration in the Asia Pacific region, to identify and analyse those aspects of the domestic and global business environment that set the 'parameters of choice' within which business organizations set objectives and take actions. A variety of assessment methods will be used to enhance students' communication skills, verbally and in writing.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a. Evaluate the fundamental economic forces that have shaped the economic performance of the region. b. Analyse key economic issues in Asia Pacific countries and in particular their business implications. c. Access how economic integration with countries in the region impacts on Hong Kong.
