

Subject Code	AF5111
Subject Title	Accounting for Corporations
Credit Value	3
Level	5
Normal Duration	One Semester
Pre-requisite / Co-requisite/ Exclusion	An introductory course in financial accounting
Objectives	This subject aims to impart students with the professional accounting practices in Hong Kong, those pertaining to the preparation and presentation of financial statements of limited companies. It contributes to the achievement of the PgDPA / MPA Programme Outcomes by enabling students to <u>apply legal and accounting regulations and standards to external financial reporting, demonstrate an awareness of the latest development in the regulatory environment affecting financial reporting and perform the role of professional accountant in an independent and objective manner (Programme Outcome 1).</u>
Intended Learning Outcomes	Upon completion of the subject, students will be able to: (a) <u>apply accounting concepts and standards;</u> (b) <u>comply with legal requirements</u> on the financial statements of limited companies; (c) <u>prepare financial statements</u> in accordance with accounting standards; and (d) <u>prepare consolidated financial statements.</u>
Subject Synopsis/ Indicative Syllabus	The Accounts of Companies Issue and redemption of shares and debentures. Companies Ordinance governing the redemption and purchase of own shares out of capital. Accounting Standards and Guidelines Hong Kong Financial Reporting Standards issued by the Hong Kong accounting standard setting-body leading to the preparation of company published financial statements in Hong Kong. Preparation of Published Financial Statements in Hong Kong Legal disclosure requirements of Hong Kong Companies Ordinance. Preparation of statement of profit or loss and other comprehensive income, and statement of financial position including necessary notes to financial statements.

	Business Combination Different types of business combination. Formation of a group. Purchase consideration and goodwill. Consolidation of a Group of Companies Features of consolidation. Consolidation of wholly owned subsidiaries and partially owned subsidiaries. Associate. Equity method of accounting. Joint venture and joint arrangement. Foreign Currency Operations Different methods of foreign currency translation. Accounting practices of foreign currency translation for individual companies.																																																						
Teaching/Learning Methodology	The teaching and learning methodology incorporate a flipped learning approach, where students review the core concepts and issues outlined in the Indicative Contents prior to class. In-class time is then dedicated to seminars that facilitate in-depth discussions and critical analysis. Exercises, problems, and short case studies are used during these sessions to illustrate key concepts and enhance students' understanding. This interactive format encourages active participation, maximizing the exchange of knowledge and diverse perspectives among students.																																																						
Assessment Methods in Alignment with Intended Learning Outcomes	Assessment components include a comprehensive case study on the preparation of the financial statements of a limited company, test and subject final examination. These assessment components require students to demonstrate their ability to <u>apply and evaluate contemporary development and framework in external reporting</u> (Programme Outcome 1). <table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% Weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th></th><th></th></tr><tr><td>Class Participation</td><td>15%</td><td>√</td><td>√</td><td>√</td><td>√</td><td></td><td></td></tr><tr><td>Mid-term test</td><td>20 %</td><td>√</td><td>√</td><td>√</td><td></td><td></td><td></td></tr><tr><td>Individual assignment</td><td>15 %</td><td></td><td></td><td>√</td><td>√</td><td></td><td></td></tr><tr><td>Final examination</td><td>50 %</td><td>√</td><td>√</td><td>√</td><td>√</td><td></td><td></td></tr><tr><td>Total</td><td>100 %</td><td colspan="6"></td></tr></table> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Participation – Participation marks are awarded based on students' engagement with pre-class video watching and exercises, as well as their active involvement in in-class exercises. This system is designed to	Specific assessment methods/tasks	% Weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)						a	b	c	d			Class Participation	15%	√	√	√	√			Mid-term test	20 %	√	√	√				Individual assignment	15 %			√	√			Final examination	50 %	√	√	√	√			Total	100 %

	encourage students to think critically and contribute actively during class discussions. Mid-term test - An integrated problem on the statutory financial statements of a single company and latest development in accounting regulation to test students' knowledge of and ability to apply the accounting principles to real life situations. Individual assignment - An integrated problem on consolidation to test students' knowledge of and ability to apply the consolidation principles. Final examination - A three-hour closed book comprehensive examination with five questions covering all the intended learning outcomes. Note: To pass this subject, students are required to obtain Grade D or above in BOTH the Continuous Assessment and Examination components. In addition, the specific requirements on individual assessment components discussed above could be adjusted based on the pedagogical needs of subject lecturer.	
Student Study Effort Expected	Class contact:	
	13 weeks of three-hour seminar	39 Hrs.
	Other student study effort:	
	Pre-class activities, revise and practise the accounting principles covered in class, and assignments	81 Hrs.
	Total student study effort	120 Hrs.
