

Subject Code	AF5122
Subject Title	Business Analytics in Accounting and Finance
Credit Value	3
Level	5
Normal Duration	One Semester
Pre-requisite / Co-requisite/ Exclusion	None
Objectives	This subject introduces students to the basic concepts, methods and approaches of data analytics in accounting and finance. This subject contributes to the achievement of the MSc in Economics programme learning outcomes by enabling students to understand the fundamental quantitative and technological methods in accounting and finance.
Intended Learning Outcomes	Upon successful completion of this subject, students should be able to: - Effectively gather, clean and transform accounting and financial data; - Summarize, visualize and present accounting and financial data; and - Analyze accounting and financial data with basic analytical approaches.
Subject Synopsis/ Indicative Syllabus	Introduction of XBRL XBRL (eXtensible Business Reporting Language) for Internet communication among businesses. Basic Concepts and Methods of Data Analytics Data preparation and cleaning; Data analytics approaches; Data visualization and summarization.

	Applications of Data Analytics Diagnostic, predictive and prescriptive analytics in managerial and financial accounting and consumer banking.							
Teaching/Learning Methodology	Key concepts and techniques will be introduced through lectures. The subject places a lot of emphasis on project work. Students will be required to deliver a project which emphasizes on real-world accounting and finance issues. By completing the project, students should have hands-on experience in using the knowledge they have learnt in class to solve accounting and finance problems in practice. Students are encouraged to share their views and experiences actively with their lecturer and classmates.							
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)					
			a	b	c			
	1. Attendance & Class Participation	10%	✓	✓	✓			
	2. In-Class Quizzes	10%	✓	✓	✓			
	3. Lab Assignments	30%	✓	✓	✓			
	4. Project report & Presentation	50%	✓	✓	✓			
	Total	100 %						
	Note: The specific requirements on individual assessment components discussed above could be adjusted based on the pedagogical needs of subject lecturers.							

	- To reflect the significant technology content in this subject, 10% of the overall weighting of this subject is based on individual assessment concerning technology-related knowledge.	
Student Study Effort Expected	Class contact:	
	Lectures / Seminars	39 Hrs.
	Other student study effort:	
	Reading materials / textbook questions/ lab quizzes	39 Hrs.
	On average around 16 hours will be spent on the individual critique and around 20 hours for the group project discussion, presentation and written report	36 Hrs.
	Total student study effort	114 Hrs.
