

Subject Code	AF5208
Subject Title	Taxation Management in Hong Kong and China
Credit Value	3
Level	5
Normal Duration	1-semester
Pre-requisite / Co-requisite/ Exclusion	Pre-requisite: None (Recommended Background Knowledge: To register for this subject, students should have basic knowledge of Hong Kong taxation or equivalent. Some basic understanding of the taxation system of mainland China is also preferred.) Exclusion: Strategic Tax Management in Hong Kong and China (AF5222)
Objectives	This subject aims to provide students with knowledge about taxation management in the context of both Hong Kong and mainland China. This subject primarily contributes to the achievement of Programme Outcome 3 by enabling students to acquire updated academic and professional knowledge of taxation principles and practices in Hong Kong and mainland China, as well as to understand the current state of development and contemporary issues relevant to business and investment decisions. It also helps them to identify and analyze ethical issues relating to tax practices. In addition, this subject enables students <u>to apply and communicate tax knowledge and practices, forming sound judgments for business operations and investment decisions in real-life settings in Hong Kong and mainland China.</u>
Intended Learning Outcomes	Upon completion of the subject, students will be able to: <u>analyze the tax framework for business transactions</u> carried out in Hong Kong and for foreign-invested entities operating businesses in the mainland China; <u>evaluate the tax consequences of various types of structure of business transactions</u> as well as the tax factors and problems for investment decisions in Hong Kong and the mainland China; <u>identify tax planning ideas and strategies for business transactions</u> in order to minimize their explicit tax liabilities or enhance their tax efficiency and effectiveness; and <u>explain and analyze the contemporary tax issues</u> in respect of law, practices, guidelines and case decisions, with due consideration on ethical issues.

[illegible]

	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Group Project Report – The objectives of the project are: (i) To enable students to develop a better understanding of some important issues in Hong Kong tax and China tax which they are interested in; (ii) To widen students' perspective on issues in Hong Kong tax and China tax; and (iii) To stimulate students' interest in searching and reading articles/ materials of related tax issues. Individual Strategic Case – The objectives of the case study write-up are: (i) To enable students to analyze the China tax framework of the case; (ii) To apply the related tax knowledge to solve the issues; (iii) To identify the China tax planning ideas and their constraints in the real- life business situation; and (iv) To formulate the sound judgment on the business decision. Tutorial Participation – Students are required to present tax problems/cases (on group basis) by analyzing the facts/tax issues and apply tax concepts/principles to provide tax solutions/explanations of tax implications. Final Examination – 3 hours open book examination with four to five tax problems/cases that students are required to analyze the facts/tax issues and apply tax concepts/principles to provide tax solutions/explanations of tax implications/advices in respect of any chosen problems/cases. <i>Note: The specific requirements on individual assessment components discussed above could be adjusted based on the pedagogical needs of subject lecturers.</i>
