

Subject Code	AF6602
Subject Title	Advanced Topics in Economics for Business Decisions
Credit Value	3
Level	6
Normal Duration	One Semester
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	This subject contributes to the achievement of the DBA/DMgt outcomes by broadening, updating, and deepening students' knowledge of business administration in general with an appreciation of digital transformation in the business world. (Outcome 1).
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - Demonstrate an understanding of current economic issues in national and global economy which are important to business, as well as an appreciation of economics and data science; - Evaluate the economics of key business strategies and the impact of management practice on firm productivity.
Subject Synopsis/ Indicative Syllabus	- The myth of economic growth: Why some countries are so rich while others are so poor? - U.S. Banking Crisis 2023; Asian financial crisis and the future of Hong Kong's dollar peg - European sovereign debt crisis 2011-2012 - Global Financial crisis 2008-2009 - Behavior economics and business strategy - Management practice and firm productivity - Productivity and Resource Misallocation - Multinational Firms and Foreign Direct Investment
Teaching/Learning Methodology	This is an advanced seminar course. It covers several topics in economics that are important to business. Lectures are to introduce background and theories for analysis while seminars are designed to provide the environment for discussions and critical analysis of the reading materials (journal articles etc).

Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)					
			a.	b.				
	Continuous Assessment*	100%						
	1.Class participation	20%	✓	✓				
	2.Paper presentation	40%	✓	✓				
	3.Written report	40%	✓	✓				
	Total	100 %						
To reflect the significant technology content in this subject, 10% (or more) of the overall weighting of this subject is based on individual assessment concerning technology-related knowledge.								
Student Study Effort Expected	Class contact:							
	▪ Lectures / Presentation and discussion						30 Hrs.	
	Other student study effort:							
	▪ Preparation for lectures						30 Hrs.	
	▪ Preparation for assignment / project and presentation						60 Hrs.	
	Total student study effort						120 Hrs.
