	overall achievement is obtained by formative assessment. Students may use GenAI in assessment unless they have been told otherwise before the assessment. The work submitted for assessment must be students' own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Third-party materials (included AI-generated materials) used in the work must be properly referenced. Submitting third-party materials as their own work is an act of academic dishonesty and will lead to disciplinary actions. Departments and subject teachers have the discretion to request students to make an honour declaration for the authenticity of the work they submit for assessment.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon completion of the subject. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/ Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time over-crowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method purports to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
