

Subject Code	ENGL5049
Subject Title	Bilingualism and Multilingualism
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	N/A
Objectives	This course gives an introduction of the study of bilingualism and multilingualism from different approaches. This subject aims to . Enable students to understand basic questions like definition of bilingualism/multilingualism, degrees of bilingualism, reasons of bilingualism, and types of bilingualism. . Introduce different approaches to the study of bilingualism and multilingualism, including linguistic dimension, psycholinguistic dimension, and sociolinguistic dimension . Enable student to learn to understand and appreciate bilingualism and multilingualism in relation to intercultural communication practices and language education.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a) understand the major concepts and theories in the field of bilingualism and multilingualism b) appreciate relevant research and methodology in the field as a basis for a deeper understanding of bi/multi-lingual speakers and practices c) understand how bilingual communication takes place in relation to different social contexts d) think analytically and critically about bilingualism as both a psychological and social phenomenon and apply their knowledge about individual and societal multilingualism in their own study and future workplace
Subject Synopsis/ Indicative Syllabus	The subject matter is composed of the following topics: Introduction to bilingualism and multilingualism Different dimensions to bilingualism/multilingualism Major concepts and methods in bilingual/multilingual research Bilingualism/multilingualism and cognition

	Bilingual language acquisition and developmental stages Bi/multi-lingual language processing mechanism Language specific issues in bilingualism/multilingualism Bilingual/multilingual language communication From Monolingualism to Bilingualism to Multilingualism Multilingual practices in different professional contexts Bilingualism/multilingualism and education Bi/multi-lingualism and translanguaging in language education Trilingualism and biliteracy in Hong Kong																																														
Teaching/Learning Methodology	The subject is delivered through interactive lectures. Students will be strongly encouraged to engage in class activities by sharing their ideas and thinking based on their own experience as bilinguals as well as their own study. Learning therefore takes the forms of lecturing, small group discussion, presentation, written assignments and a final project.																																														
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th></th><th></th></tr><tr><td>1.
