

Subject Code	ENGL562
Subject Title	Communication
Credit Value	3
Level	5
Pre-requisite/Co-requisite/Exclusion	N/A
Objectives	The subject provides opportunities for students to examine scholarship concepts and theories in interpersonal communication, persuasion, group communication, mass/mediated communication, non-verbal communication, as well as an introduction to the cognitive and psychological processes underlying language and communication. It encourages students to apply the concepts and theories in the description, interpretation, and explanation of the salient factors, processes and products in real-life communicative events in professional discourse contexts, with a view to enhancing the students' communicative competencies.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: Category A: Professional/academic knowledge and skills - learn and understand scholarship communication theories which have strong pragmatic value to communicators - appreciate the functions, value and relevance of scholarship communication theories to students' professional and personal lives - learn and apply research methods in communication - apply the understanding of scholarship communication theories to the analysis of a variety of discourse, in particular to research a chosen topic that is of interest, relevance, or importance to students' professional or personal lives. Category B: Attributes for all-roundedness - develop analytical reasoning, critical thinking, and problem solving skills: <u>analytical reasoning</u>: to think in a logical manner, supporting ideas with well-reasoned arguments and evidence <u>critical thinking</u>: to evaluate information and evidence critically, able to recognize flaws or inconsistency in an argument <u>problem solving</u>: to understand the problem, explore plausible answers, and select the most appropriate decision/solution for the problem
Subject Synopsis	- Communication audit to maximize performance: definitions, functions, instruments, and process - Communication theories: - Theories of interpersonal communication: The Co-operative Principle, and Politeness Theory - Theories of persuasion: • Theories of group communication: Function Group Decision Making - Theories of mass/mediated communication: Semiotics, Cultural Studies and Agenda-Setting Theory

	- Theories of non-verbal communication: Visual grammar, kinesics, chronemics, and proxemics - Psycholinguistic theories of language and communication disorders: Aphasia, anomia - Cognitive linguistic models of communication: Conceptual Metaphor Theory 3. Applications of communication theories to the study of communication in different contexts of situation 4. Qualitative and quantitative methods for communication research																																								
Teaching/Learning Methodology	The subject will utilise lecture inputs, student-led seminars, on-line sessions, and guided reading to help students understand and apply the scholarship communication theories and concepts.																																								
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="5">Intended subject learning outcomes to be assessed</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th>e</th></tr><tr><td>1. In-class test</td><td>40%</td><td>✓</td><td>✓</td><td></td><td>✓</td><td>✓</td></tr><tr><td>2. Group presentation(s)</td><td>30%</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td></tr><tr><td>3. Individual reflective pieces</td><td>30%</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td></tr><tr><td>Total</td><td>100%</td><td></td><td></td><td></td><td></td><td></td></tr></table> Assessment is both for and of learning. The three assignments are designed to help students to achieve all the intended learning outcomes.
