

The Hong Kong Polytechnic University

Subject Description Form

Subject Code	FSN6501
Subject Title	Advanced Topics in Food Safety in Action
Credit Value	3
Level	6
Pre-requisite	Nil
Objectives	This subject aims at demonstrating to students how industrial stakeholders in food industry engage in best practices food safety in daily operation and emergency situation. The goal is to give students a real life sense of how to adopt general principles of food safety into daily operations.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - Identify major safety issues in food industry and recommend possible solutions; - recognize current developments in food safety regulation, monitoring and management - demonstrate life-long learning, critical thinking and communication skills; - appreciate the value of social and national responsibilities as well as professional integrity and ethics.
Subject Synopsis/ Indicative Syllabus	In this subject, we will present current best practices of the industry for food safety and risk management. Major food safety-related risks will be covered with information on hazard analysis and risk assessment. The importance of food safety culture and the role of food safety management plans will be discussed. Moreover, theories and practices in supply chain verification, food safety auditing and inspection will also be explained. Strategies and practices of real food companies will be used as cases to illustrate food safety management principles.

Teaching/Learning Methodology	Blended learning model will be applied in this subject, with lectures carried out at HK PolyU Campus and videos of presentation available online. Group discussion will form a significant part of the teaching and learning strategy of this subject, which aim to foster students’ skills in analytical power, information acquisition, critical thinking, problem-solving and life-long learning. Through small-group discussions of relevant topics/issues, tutorials can also enhance students’ communications skills and their awareness of professional integrity, ethics and social responsibilities.																																														
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th></th><th></th></tr><tr><td>1. Group Project Presentation</td><td>40 %</td><td>√</td><td>√</td><td>√</td><td>√</td><td></td><td></td></tr><tr><td>Total</td><td>100 %</td><td colspan="6"></td></tr></table> <i>*Weighting of assessment methods/ tasks in continuous assessment may be different, subject to each subject lecturer.</i> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: To ensure that students learn and reflect continuously, continuous assessment will be used. It includes individual essays and presentations. The essay will be assessed using the Biggs’ Structure of the Observed Learning Outcome taxonomy which shows clearly students’ level of understanding. The presentation aims at fostering students’ abilities to make connections with and apply what they have learnt. Regular attendance is encouraged. Students must maintain at least a 60% attendance rate for successful course completion. Student Study Effort Expected	Class contact:	
	▪ Lecture	27 Hrs.
	▪ Tutorial	12 Hrs.
	Other student study effort:	
	▪ Individual Essay	20 Hrs.
	▪ Group Project Presentation	20 Hrs.
	▪ Self study	30 Hrs.
	Total student study effort	109 Hrs.
Reading List and References	Reading materials will be provided in class.
