

Subject Description Form

Subject Code	LSGI3102
Subject Title	Land Surveyors in Society
Credit Value	1
Level	3
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	The subject is designed to introduce students to the legal and professional aspects of the geomatics industry. Students will develop an understanding of the relevant statutory and institutional practices and awareness on ethical decision making.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: A. Identify key components of the legal system in Hong Kong (L2); B. Describe the functions and operation of professional rules and regulations (L3).
Subject Synopsis/ Indicative Syllabus	A. Legal System Law; World law systems Hong Kong legal system and constitution Hong Kong court system Judiciary and judgments Land Registration B. Ethics Rule of Conduct Code of Ethics for Surveyors Professional Obligations Moral development Conflicts of interest Preservation of confidential information
Teaching/Learning Methodology	Lectures on legal systems and professional ethics are delivered. Students collect practicing information and current professional issues, the subject lecturer will enunciate currently adopted professional stands and facilitate discussions on directions of improvement. Professional guest speakers will be invited to discuss and share with students on recent practice issues. Students have to be self-motivated to carry out studying at the professional practice issues and learned to search for updated statutory requirements.

	The use of group presentations by case-based learning mode is gradually increased in the second half of the course.
