

Subject Description Form

Subject Code	ITC516 (<i>suspended offering in 2020/21</i>)
Subject Title	Research Methodology
Credit Value	3
Level	5
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	1. To equip students with the principles and skills required to undertake independent research in fashion technology and fashion merchandising. 2. Students will be able to make use of primary and secondary sources of information to plan and implement a research project, and to report the results in the form of a master degree dissertation.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: 1. Respond to research problems and identify the objectives for the problem inquiry systematically. 2. Investigate literature and field information in controlled procedures. 3. Design analytic methods scientifically. 4. Make research-based conclusion and recommendation.
Subject Synopsis/ Indicative Syllabus	1. <u>The concept of research</u> The concept and practice of research; roles of research; the nature of enquiry; fundamental, applied, experimental and action research. 2. <u>Research theory</u> The nature of enquiry; philosophical frameworks: inductive, deductive; exploratory research, descriptive research, experimental and evaluation research. 3. <u>Research design</u> Defining the research problem; establishing and assessing methodological validity and reliability. 4. <u>Research methods</u> Survey methods, questionnaires and interview methods; sample designs and sampling methods. 5. <u>Data analysis</u> Quantitative and qualitative approaches; measurement and scaling

	6. <u>Evaluation</u> Drawing conclusions; critical evaluation of sources, data and assumptions. 7. <u>Presentation of research results</u> Report writing, writing up; types and styles of presentation. 8. <u>Ethical issues in research</u>																											
Teaching/Learning Methodology	The learning approach will consist of lectures, seminars and student self-study and assignments.																											
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="4">Intended subject learning outcomes to be assessed</th></tr><tr><th>1</th><th>2</th><th>3</th><th>4</th></tr><tr><td>1. Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed																										
		1	2	3	4																							
1. Coursework	100%	✓	✓	✓	✓																							
Total	100%																											
Student Study Effort Expected	Class contact:																											
	▪ Lecture		27 Hrs.																									
	▪ Tutorial		12 Hrs.																									
	Other student study effort:																											
	▪ Self study		66 Hrs.																									
	Total student study effort		105 Hrs.
