

Subject Description Form

Subject Code	ITC529
Subject Title	Fashion Merchandising Planning & Control
Credit Value	3
Level	5
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	This subject enlightens students to anticipate and analyze critically the market requirements in fashion and textile merchandising business. Students are knowledgeable about and apply the innovative practices and business models prevailing in fashion and textile product development, sourcing and buying activities. Students can design and implement planning and control mechanisms in managing today's globalizing supply pipeline functions.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: 1. Demonstrate and apply managerial frameworks to plan and organize resources for workflow processes in global fashion supply and distribution activities. 2. Anticipate dynamic market trends and operational problems in global fashion business and customize appropriate product mixes to diversifying consumer market requirements. 3. Demonstrate an understanding about cultural and social diversities in global fashion marketplaces and infer such dimensions to reasoning and making decisions in today's global contexts. 4. Present own opinion and views effectively, and can promote sharing and information interchanges among well-partitioned function teams across organizations.
Subject Synopsis/ Indicative Syllabus	1. <u>Organizing for Fashion Merchandising</u> Evolution of merchandising in the Hong Kong clothing industry. Structure of the merchandising function. Roles and responsibilities of merchandisers in the trading and manufacturing sector. Understanding continuous organizational development for improving the company performance. 2. <u>Merchandising Planning</u> Linking corporate strategic planning to merchandise planning. Analyzing the merchandising environment in terms of market trends, economic factors, technological advancements, competition and regulations in the international trading of textiles and clothing.

	Developing short-term and long-term merchandising strategies. Developing workflow systems to facilitate information interchange and change management. 3. <u>Merchandising Control</u> Setting of self-monitoring and feed-back systems; coordination methods; human and systems aspects and issues. Decisions in uncertain, complex environment. Innovative practices in controlling today’s globalizing activities.																												
Teaching/Learning Methodology	The pedagogical approach consists of case-based lecture discussions and seminars. Case-based lecturing concerns the issues, decisions and strategies applied to real life merchandising planning and control problems. Seminar will be student-centered in the form of group presentation and discussions. Guest speakers may be invited where appropriate to speak on current issues of merchandising and related topics.																												
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="4">Intended subject learning outcomes to be assessed</th></tr><tr><th>1</th><th>2</th><th>3</th><th>4</th></tr><tr><td>1. Examination</td><td>50%</td><td>✓</td><td>✓</td><td></td><td>✓</td></tr><tr><td>Total</td><td>100%</td><td colspan="4"></td></tr></table> Coursework assesses students formatively about their knowledge digestion and concept formation. Examination assesses students’ analytic skills and knowledge generalization in more summative means. The materials submitted for this assessment must be the student’s own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students’ own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed				1	2	3	4	1.
