

Subject Description Form

Subject Code	ITC531
Subject Title	Visual Design Communication
Credit Value	3
Level	5
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	This study aims to assist students to develop professional and creative design portfolios for the fashion and textile industry. Students will be introduced to CLO 3D software and will be expected to use this going forward. They will use and apply various multi-media to enhance their visual output and identity.
Intended Learning Outcomes	Upon completion of the subject, students will: 1. Develop a critical approach towards the deployment of presentation techniques in visual design communication. 2. Acquire the knowledge and understanding of modern technologies such as GenAi and other media to effectively enhance their visual design communication. 3. Demonstrate and apply CLO 3D software. 4. Create innovative and professional visual work which will contribute to a final portfolio.
Subject Synopsis/ Indicative Syllabus	1. Presentation techniques Presentation skills and techniques, both verbal and non-verbal will be examined, to prepare students to present their work in a professional environment. 2. Visual literacy, expression and style Visual awareness, aesthetics, colour, individual style will be explored. There will be a focus on developing existing illustration and design skills. 3. New Technology Students will be introduced to CLO, 3D Fashion Design software, to further enhance and develop their portfolio and personal identity. 4. Portfolio appraisal Development of a professional, creative portfolio pages to convey ideas in an immediate, tangible way, personal style and versatility will underpin the work.

	5. Multi-media & Contemporary technologies studies A study of multi-media and contemporary modern digital technologies will be applied to communicate ideas freely and creatively. The use of GenAI will be encouraged to assist students in generating primary research that could contribute to the creation of original work.							
Teaching/Learning Methodology	Lectures, supplemented by tutorials, seminars and guided study with interactive group discussions. Studio work will include research and practical work. Individual presentation may be employed to assess the students' critical thinking, creativity and professionalism.							
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed
