

Subject Description Form

Subject Code	ITC543
Subject Title	Project
Credit Value	9
Level	5
Pre-requisite / Co-requisite/ Exclusion	Pre-requisite: Design Collection Preparation (ITC544)
Objectives	The unit aims to enable students to develop a professional collection of prototypes relating to their personal design D.N.A. and practice that is commercially viable and suitable for their chosen market. Students will produce: A body of work / collection consisting of a minimum of 8 prototypes, supported by a professional portfolio demonstrating solid research and the development of their practice. A project report (minimum of. 5,000 words) evidencing the evolution and development of their in-depth research, relevant to the final body of work. Students will be encouraged to adopt the use of GenAi to create the preliminary plan and structure of their thesis. This practice based project aims to reinforce students' theoretical exploration and understanding of contemporary fashion and textile design via focussed research and practical work.
Intended Learning Outcomes	Upon completion of the unit, students will: 1. Identify a contemporary design-related issue / gap in the market that impacts upon the fashion / textiles industry or the individual student's specialist area of research. 2. Have utilised both theoretical and practical research methodologies to conduct their research and justify their findings. 3. Have applied the findings of their investigation to the creation of a body of work / collection supported by a professional portfolio and concise project report. 4. Have develop a body of work / collection specific to a market of their choice through in-depth analysis of their chosen market and relevant new fashion / textile technologies and innovation. 5. Communicate, justify and present their body of work / collection effectively and professionally in a dynamic, innovative visual and verbal format.
Subject Synopsis/ Indicative Syllabus	1. In-depth Design Research Research and development on design concept, fashion trends, fabric theme, and colour story. 2. In-depth Market Research

	Analysis of target customers and potential competitors in the marketplace. 3. In-depth Technology Research Research into the latest fashion / textile technologies for creating design prototypes. 4. Design Visualisation and Communication Organisation of illustrated design work into a story to communicate a visual statement Presentation of fashion illustrations and production drawings for sample development. 5. Development of Prototypes Pattern cutting and toile preparation. Making-up and finishing process. Fitting on garment stand and/or live model. 6. Styling Styling of collection and selection of fashion accessories for co-ordination. 7. Presentation of Collection Displaying the fashion collection with personal design statement through a professional presentation, professional design portfolio and project report.																																															
Teaching/Learning Methodology	The subject will be delivered in a studio based environment, with emphasis placed on student-centred development and close interaction between project supervisors and students to extend design creativity. Individual presentation is employed to assess the students’ critical thinking, creativity and professionalism.																																															
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="5">Intended subject learning outcomes to be assessed</th></tr><tr><th>1</th><th>2</th><th>3</th><th>4</th><th>5</th></tr><tr><td>Collection</td><td>50%</td><td></td><td></td><td>✓</td><td>✓</td><td></td></tr><tr><td>Presentation</td><td>10%</td><td></td><td></td><td></td><td></td><td>✓</td></tr><tr><td>Portfolio</td><td>20%</td><td></td><td></td><td>✓</td><td></td><td>✓</td></tr><tr><td>Project Report</td><td>20%</td><td>✓</td><td>✓</td><td>✓</td><td></td><td></td></tr><tr><td>Total</td><td>100%</td><td colspan="5"></td></tr></table> Students will submit their collection, portfolio and project report and are required to give a presentation at the end of the course. This assigned project is to assess each student’s ability to develop innovative and contemporary work in their personal area of specialism through in-depth research and practical work.
