

Subject Description Form

Subject Code	ITC546
Subject Title	Fashion Business
Credit Value	3
Level	5
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	1. This unit aims to provide students with an understanding of how fashion is shaped beyond design. Insights and research into fashion systems and business models will facilitate students to confidently position themselves within an area of the fashion industry which suits their future career goals and aspirations. 2. There will be an emphasis on the transaction between designer and consumer, and students shall creatively 'brand' themselves and their final major project work with informed business knowledge and economic sensibility, while utilizing a wealth of resources and technologies to further enhance their unique brand expression.
Intended Learning Outcomes	Upon completion of the subject, students will: 1. Identify key principles of fashion systems and innovative business models. 2. Develop strategic intuition in response to the changes within the global fashion industry and establish well-informed future opportunities. 3. Establish a unique branded business model and formulate effective business strategies to justify it. 4. Using GenAi, generate visuals that could contribute towards the design and development of their brands store environment, its Visual attributes and potential in-store experiences.
Subject Synopsis/ Indicative Syllabus	1. Introduction to the Fashion Business An overview of the scope of the fashion. 2. Understanding Fashion Systems & Brand Building Explore various fashion systems and business models and discover innovative ways the designer can utilise towards building / creating a brand which will respond to consumer needs.

	3. New Trends in Design, Marketing and Communication An investigation into popular and current marketing and communication strategies used within the industry.					
Teaching/Learning Methodology	The module consists of lectures, seminars and guided study. Lectures will be supplemented using system theory and case study methods, relevant to the fashion industry. Seminars will be student-centred in the form of group presentations and discussions.
