Intended Learning Outcomes	Upon completion of the subject, students will be able to: - The student will be able to propose the research gap and avenue of future research on this topic. - The student will also be able to apply relevant management theories and research frameworks in the green production and corporate social responsibility related researches. - The student will be able to conduct meta-analysis of the topic
Subject Synopsis/ Indicative Syllabus	Week 1 Introduction Lecture Week 2 to 4 Preliminary literature review Week 5 Consultation on literature review progress Week 6 Lecture on meta-analysis methodology Week 7 to 9 Meta-analysis tutorial Week 10 Lecture on preparing review report Week 11 to 13 Review report preparation and tutorial Week 14 Subject wrap up
Teaching/Learning Methodology	Students are required to attend lectures, read assigned research papers, and submit a written report on an assigned research topic.

Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed					
			a	b	c			
	1. Assignment	30	✓	✓				
	2. Exam	70	✓	✓	✓			
	Total	100%						
Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:								
Student Study Effort Expected	Class contact:							
	▪ Lecture						6 Hrs.	
	▪ Tutorial / Consultation						22 Hrs.	
	Other student study effort:							
	▪ Reading papers						50 Hrs.	
	▪ Preparing assignment and report						60 Hrs.	
	Total student study effort						138 Hrs.
