

Subject Description Form

Subject Code	ITC2001D
Subject Title	Design Studies
Credit Value	3
Level	2
Pre-requisite/ Co-requisite/ Exclusion	Exclusion: SFT201FY Deign Studies
Objectives	The subject identifies and analyses artistic methods employed by the design industry to solve design-related problems. It specifically explores the concepts and functions of design, and its relationship with our daily lives, with reference to a broad range of fashion products.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: (a) recognize the design dimensions of fashion products; (b) adopt a holistic approach toward the concepts and functions of design process and development; (c) develop and implement the skills and techniques of visualizing and presenting design concepts for new fashion products effectively; (d) communicate and function both effectively and professionally in the context of design; (e) develop critical and creative thinking.
Subject Synopsis/ Indicative Syllabus	(I) Fashion Products Understanding of various types of fashion products in the current market and their corresponding design dimensions (II) Concepts and Functions of Design Understanding of design Design elements and principles Role and responsibilities of a designer (III) Problems and Solutions Components of design problems Measurement of criteria and judgment in design (IV) Design Process Models of design process Demystification of design

Teaching/Learning Methodology	Dissemination of knowledge through lectures, and tutorials in the studio environment will be employed. This interactive approach will offer better opportunities for students to deepen their understanding of the concepts taught as well as gain hands-on experience in problem solving. Students will present solutions to problems in the assigned student-centred projects.						
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)				
			a	b	c	d	e
	Continuous Assessment	100%	✓	✓	✓	✓	✓
	1. Group Project – report & electronic	30%	✓	✓	✓	✓	✓
	2. Design Portfolio – concept research and development, design drawings	30%		✓	✓	✓	✓
	3. Prototype Realization – fashion product	20%		✓	✓	✓	✓
	4. Presentation	20%				✓	✓
	Examination	0%					
	Total	100%					
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: The group project will assess students’ learning outcomes including theories related to the concepts of design process and development, and various design dimensions of fashion products. The design portfolio and prototype realization will appraise students’ practical skills and creativity related to the design project's organisation, clarity, quality and its conveying ideas. Students’ professionalism including communication and presentation skills as well as development of critical and creative thinking will also be assessed.						

Student Study Effort Expected	Class contact:	
	▪ Lecture	26 Hrs.
	▪ Tutorial	12 Hrs.
	Other student study effort:	
	▪ Assignments	70 Hrs.
	Total student study effort	108 Hrs.
