

Subject Description Form

Subject Code	ITC2003D
Subject Title	Fashion Design I
Credit Value	3 credits
Level	2
Pre-requisite/ <Co-requisite> / (Exclusion)	Nil
Objectives	The subject identifies and analyses professional methods employed by the fashion industry to develop, visualise and present original fashion concepts and ideas effectively. It specifically provides students with comprehensive knowledge of fashion design, so as to lay a foundation for further study in fashion and the related areas.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - recognize the inter-relationship between fashion and influential factors other than fashion (e.g., art and design, science and technology, economy, politics, social events, etc.); - recognize inspiration from various sources for developing original fashion concepts and ideas; - evaluate the opportunities and limitations involved in fashion design; - develop and implement the skills and techniques of visualising and presenting fashion concepts and ideas effectively. - possess global outlook; - communicate and function both effectively and professionally; - develop critical, innovative and creative thinking; - commit to life-long learning.
Subject Synopsis/ Indicative Syllabus	(I) Fashion Evolution Appreciation of fashion throughout history (II) Fashion Glossary Understanding of fashion terms and definitions (III) Design Elements and Principles Appreciation of silhouette, proportion, texture, pattern & print, colour, fabric, cut, details, application and the use of accessories to complete a total look in fashion design Aesthetic values of proportion, balance, rhythm, emphasis and unity to enhance style (IV) Techniques in Fashion Visualization Types of fashion drawings and their importance Techniques for achieving the various purposes in visualizing fashion ideas

	(V) Role and Responsibilities of the Fashion Designer Couturiers and ready-to-wear designers Role and responsibilities of in-house and freelance designers (VI) Introduction to Fashion Styling and Co-ordination Appreciation of fashion stories and themes in fashion design Deployment of design theories in styling and co-ordination																																															
Teaching/Learning Methodology	Dissemination of knowledge to small groups through lectures and practice in studio environment will be employed. This interactive approach offers better opportunities for students to deepen their understanding of the concepts taught as well as hands-on experience in problem solving. Students will present solutions to problems solved in assigned project work through the student-centred projects.																																															
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="8">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th>e</th><th>f</th><th>g</th><th>h</th></tr><tr><td>1. Continuous Assessment</td><td>100%</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td></tr><tr><td>Total</td><td>100%</td><td colspan="8"></td></tr></table> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Since continuous assessment is formative, process-oriented and learner-involved, it is particularly suitable for design subjects which usually requires a project portfolio that synthesizes design process, presentation and class participation. It is a sustained means of assessment to provide prompt feedback, to reinforce or correct learned responses, and it has a strong interactive impact on maintaining the quality of student learning.
