	1. Continuous coursework	60%	✓	✓	✓	✓
	2. Examination	40%	✓	✓	✓	✓
	Total	100%				
Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: The subject belongs to the social science discipline in which theories are dynamically tied with changing situations of social and technological development. In such learning contexts, coursework projects form the key part of assessment. This is formative and reflecting not only how much students can understand the knowledge, but also to what extents the students can apply the knowledge in use. The approach based on conventional assessment by examination can only assess students' understanding normatively.
