| <b>Level</b>                                                     | <b>3</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Pre-requisite/<br/>&lt;Co-requisite&gt; /<br/>(Exclusion)</b> | ITC2004T Textile Studies II                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Objectives</b>                                                | The subject aims to provide the students with an outline of knitwear manufacturing. That includes the use of materials and accordingly the methods of manufacturing. Knitting is the essential part of this subject since flat knitting machines start the knitwear making process. Students are required to acquire a high standard of proficiency in operating a manual knitting machine which forms the basis of a thorough understanding of stitch formation.    |
| <b>Intended Learning Outcomes</b>                                | Upon completion of the subject, students will be able to: <ul style="list-style-type: none"> <li>a. classify and describe the different types of knitwear production;</li> <li>b. analyze the materials used in the making of knitwear;</li> <li>c. performing knitting of all basic stitches using a manual knitting machine</li> <li>d. Communicate efficiently and clearly with textile professionals</li> </ul>                                                  |
| <b>Subject Synopsis/<br/>Indicative Syllabus</b>                 | <p><b>(I) Circular knitting:</b> characteristics of circular knitted fabric; cut and sewn knitwear production processes;</p> <p><b>(II) Flat knitting:</b> technology of modern flat knitting machines; fully fashioned knitting and integral knitting; intarsia knitting;</p> <p><b>(III) Knitting studio:</b> use of manual knitting machines for knitting; knitting swatches with basic stitch variations; loop transfer pattern and fully fashioned knitting</p> |
| <b>Teaching/Learning Methodology</b>                             | Lectures will be conducted in classrooms for background knowledge in knitwear production. More time will be spent in the knitting laboratory for demonstration and hands-on experience with manual knitting machine aiming to build up a solid understanding of stitch formation and design. Elementary stitch design project will form the core assignment serving as a student-centred learning platform.                                                          |

|                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |             |                                                                                |   |   |   |  |  |
