

Subject Description Form

Subject Code	ITC3210D
Subject Title	Menswear Design
Credit Value	3
Level	3
Pre-requisite(s) / <Co-requisite> / (Exclusion)	ITC2205D Fashion Design
Objectives	The subject provides the knowledge and skills employed by the fashion industry to develop creative menswear garments for a global market. It specifically provides professional skills to visualize, present and communicate original menswear design concepts in both 2-dimensional and 3-dimensional formats effectively.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a. recognise specific design elements and principles in developing contemporary menswear design; b. recognise inspiration from various sources for developing original menswear design concepts for a global market; c. develop and implement the skills and techniques of visualising and presenting menswear design concepts in 2-dimensional format effectively; d. understand and implement new technologies related to menswear garment prototyping in 3-dimensional format effectively; and e. effectively communicate with design professionals and function professionally in the context of menswear design.
Subject Synopsis/ Indicative Syllabus	(I) Evolution of Menswear History of menswear. Understanding of the design approaches and philosophies of influential contemporary menswear designers. (II) Design Development of Menswear Transformation of inspiration into original menswear design concepts for a global market. (III) Techniques in Fashion Visualisation Techniques of design drawings and technical drawings for menswear design in 2-dimensional format. (IV) Techniques in Garment Prototyping Garment pattern-cutting/draping and sewing techniques for prototyping menswear garments in 3-dimensional format.

	(V) Fashion Styling and Co-ordination Deployment of design concepts in menswear styling and co-ordination.						
Teaching/Learning Methodology	Dissemination of knowledge through lectures and practice in a studio environment will be employed. This interactive approach will offer better opportunities for students to deepen their understanding of the concepts taught as well as gain hands-on experience in problem solving. Students will visualise and present fashion concepts for menswear garments both in 2-dimensional and 3- dimensional formats in assigned project work through the student- centered projects.						
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)				
			a	b	c	d	e
	Continuous Assessment	100%	✓	✓	✓	✓	✓
	<i>1. Design Portfolio – concept research and development, design drawings</i>	40%	✓	✓	✓		
	<i>2. Prototype Realisation – menswear garments</i>	40%	✓	✓		✓	
	<i>3. Presentation</i>	20%					✓
	Examination	0%					
	Total	100%					
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: The design portfolio and prototype realisation will assess students’ understanding of theories related to the concepts and applications of design elements and principles, design development, as well as the visualisation and presentation skills in contemporary menswear design. Students’ communication and presentation skills in the context of menswear design will also be assessed.						
	Student Study Effort Expected	Class contact:					
▪ Studio					39 Hrs.		
Other student study effort:							
▪ Projects					69 Hrs.		
Total student study effort					108 Hrs.
