

Subject Description Form

Subject Code	ITC3217I
Subject Title	Introduction to Intimate Apparel and Activewear Design
Credit Value	3
Level	3
Pre-requisite(s) / <Co-requisite> / (Exclusion)	Nil
Objectives	The subject identifies and explores the creative process of both intimate apparel and activewear design and subsequent collection development. It examines the process of designing a collection including trend forecast, market research, concept development, fabric and trim sourcing, fashion sketching, production drawing, and design concept presentation for both intimate apparel and activewear.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - identify design elements and principles used in the intimate apparel and activewear design; - identify garments with correct terminologies; - analyse the process of developing a design from ideas to presentation of finished product; - create a cohesive fashion collection applying design elements that demonstrate individual creativity; - demonstrate the necessary communication skills to present design concepts and ideas at a level acceptable to industry.
Subject Synopsis/ Indicative Syllabus	(I) Origins and Evolution of Intimate Apparel and Activewear Definition of intimate apparel. Definition of sportswear, activewear, athleisure. Major players in the markets. (II) Types and Terminology- Intimate Apparel and Activewear Appreciation of different types of intimate apparel and activewear. (III) Design Elements and Principles Used in Intimate Apparel Types of design elements and principles. Application of design elements and principles in intimate apparel.

	(IV) Design Elements and Principles Used in Activewear Design Types of design elements and principles. Application of design elements and principles in activewear. (V) Design Development Creation of design stories and themes. Design development cycle: from concept to sketching, plan the elements emphasizing proportion, material/colour rendering and design considerations. (VI) Presentation of Collection Effective presentation of fashion concepts and ideas. Portfolio development: storyboard and design board layout with visual images including fashion illustrations, fabric/colour and flat sketches composition. Presentation techniques.																																																						
Teaching/Learning Methodology	A combination of studio workshops and lectures will be designed to provide a general framework with specific reference to theoretical and practical issues. Guest seminars will be given by professionals to share their professional expertise and provide valuable insights into the intimate apparel and activewear markets. Visits to museums, exhibits and design houses will also be offered to broaden their design knowledge. Students’ presentations and interactive discussions will develop their presentation and communication skills.

	For intended learning outcomes a, b, & c, student's comprehension and interpretation of industry trends will be assessed via a design research report and an individual collection. For intended learning outcomes d & e, students' ability to produce both technical and artistic drawings by applying design elements will be assessed via an individual collection. Also, students' professionalism, including communication skills and punctuality, will be assessed via presentations, attendance and participation in class.	
Student Study Effort Expected	Class contact:	
	▪ Lecture	26 Hrs.
	▪ Studio	12 Hrs.
	Other student study effort:	
	▪ Projects	67 Hrs.
	Total student study effort	105 Hrs.
