

Subject Description Form

Subject Code	ITC329XE
Subject Title	UX Design for Fashion
Credit Value	3
Level	3
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	This course is a fundamental set of concepts and tooling we put together to help you kick-start practicing people-centric design for digital products. In this subject, you will get practice in UX research, rapid prototyping, design systems and more. Together we will build simple apps, perform UX research, apply insights across platforms and finish with you focusing on your personal portfolio project.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a. Bring design-thinking methodologies into the workplace; b. Conduct research to understand user/consumer pain-points; c. Align business and product goals with user needs; d. Create simple prototypes using Figma/Sketch/Principle, or Adobe UX; e. Present your design ideas to stakeholders.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	The course will provide a survey of UX design process for fashion related application: (I) Introduction to UX An overview of what UX means for modern users today, its applications over mediums. (II) The UX Strategy Learn how to create the right UX strategy for different fashion products, identify the right problem, value innovation, and decide the right user research and the execution plan. (III) Empathy Overview of 6 most popular research types, including Focus Group, Interviews, Screening Questionnaire, Desirability test, Card Sorting, A/B test. Use peer-to-peer exercise to understand the feedback cycle. (IV) Define Learn how to extract important information about your target user from quantitative and qualitative research insight gathered in the empathy phase to prepare ideation. Map out the user journey with selected product/services, identify key activities and pain points. (V) IDEATE DIVERGENCE

	Learn ideation methods to spark innovation ideas Brainstorm, Storyboard, mind map, scamper, (VI) IDEATE CONVERGENCE Learn to use interactive design thinking to select ideas with convergence methods, including category method, 6 thinking hats, post-IT vote, lean startup machine validation board. (VII) Prototyping Learn how to use software or tools to design products that users will enjoy. Artboards vs Pages on design apps Screens and flows for demonstrating prototypes. (VIII) Usability Testing Test the prototypes and get instant feedback. Make a usability test plan; conduct usability testing; create a usability test report. The following tools/software may be used: 1. Figma 2. Adobe XD 3. Sketch 4. Principle																																																						
Teaching/Learning Methodology (Note 3)	Lecture discussion and tutorials will underpin students’ understanding of the subject contents. Instrumental cases will be adopted to illustrate the usability of the principles in today’s global fashion business. Apart from lecturing, coursework including assignments, online quizzes and group project will also be key parts of the knowledge learning																																																						
Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th>e</th><th></th></tr><tr><td>1. Assignments and participations</td><td>20%</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td></td></tr><tr><td>2. Quizzes</td><td>15%</td><td>✓</td><td>✓</td><td></td><td>✓</td><td>✓</td><td></td></tr><tr><td>3. Projects</td><td>25%</td><td>✓</td><td>✓</td><td></td><td>✓</td><td>✓</td><td></td></tr><tr><td>4. Examination</td><td>40%</td><td>✓</td><td>✓</td><td></td><td>✓</td><td>✓</td><td></td></tr><tr><td>Total</td><td>100 %</td><td colspan="6"></td></tr></table> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: 20% is given for student’s assignments and participation in terms of quality of questions, answers and student engagement in both lectures and tutorials. Online quizzes will be provided to assess students’ understanding on subject matters. All quizzes are open book. There are either multiple choice questions and/or short questions. Students are advised NOT to click on quizzes link until you are ready to take the quiz. There is no retakes, you can only take the quiz once. Total	100 %																																																						

	The subject has a group project, which requires the students to develop a social media enabled strategy and marketing plan to promote a fashion brand. The project requires a project proposal and presentation as well. A final 2-hour exam will be closed book examination.	
Student Study Effort Expected	Class contact:	
	▪ Lecture	26 Hrs.
	▪ Tutorial	12 Hrs.
	Other student study effort:	
	▪ Self-study/Preparation	46 Hrs.
	▪ Project/Assignments	24 Hrs.
	Total student study effort	108 Hrs.
