Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed					
			a	b	c	d	e	
	1. Assignments	40%	✓	✓	✓	✓	✓	
	2. Projects	60%	✓	✓	✓	✓	✓	
	Total	100 %						
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Students will be expected to understand basic techniques of video production in this subject. Such techniques will be acquired through extensive hands-on practice and exercises. Therefore, the course will be assessed by in-class assignments. Students will also be expected to communicate effectively and think critically by applying video promotion to support their future career, and such knowledge integration will be achieved through project work. In-class assignments and projects will be appropriate methods to assess students’ proficiency in achieving the intended learning outcomes. “The materials submitted for this assessment must be the student’s own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students’ own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.”							
Student Study Effort Expected	Class contact:							
	▪ Lecture						12 Hrs.	
	▪ Studio						26 Hrs.	
	Other student study effort:							
	▪ Self-study/Preparation						25 Hrs.	
	▪ Project/Assignments						45 Hrs.	
	Total student study effort						108 Hrs.
