

Subject Description Form

Subject Code	ITC4049I
Subject Title	Intimate Apparel Design Project
Credit Value	3 credits
Level	4
Pre-requisite/ <Co-requisite> / (Exclusion)	ITC3010I Bra Construction & ITC3016I Intimate Apparel Patternmaking & ITC3017I Introduction to Intimate Apparel Design
Objectives	This course focuses on the process of creating a line of intimate apparel for the specific industry partners or brands. Specific industry partners will be invited to give a design brief to students so students learn the process of organizing original design concepts into a complete apparel collection including the designing, pattern construction, and sample production based on the brief. Students will create a line of intimate apparel by using industry partners' standard body measurements and production techniques.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a. identify design requirements for the target customers; b. analyse and compare various products for the target customers available on the market; c. demonstrate an imaginative approach to the generation and interpretation of design ideas; d. create a cohesive intimate fashion collection applying design elements that demonstrate individual creativity; e. demonstrate the necessary communication skills to present design concepts and ideas at a level acceptable to industry. Also, demonstrate punctuality and participation as the industry requires.
Subject Synopsis/ Indicative Syllabus	(I) Design research Recognition of specific design requirements Observation of latest innovation and trend analysis (II) Idea exploration Incorporation of the target customers' design requirements Aesthetic and functional design aspects Visualisation of ideas (III) Fabric and trim selection Sourcing of fabrics and trims for the target customers (IV) Realisation Pattern development Sample creation (V) Presentation of collection Presentation to the industry partner(s) Visual and verbal communication skills

Teaching/Learning Methodology	A combination of studio workshops and lectures are designed to provide general framework with specific reference to theoretical and practical issues. Guest seminars given by industry partners to share their expectation provide students a valuable insight into the realities of intimate fashion design markets. Visits to the industry partner’s facilities will also be offered to broaden their understanding on the design requirements of this course. Students’ presentation and interactive open-forum discussions will be employed to help students with their verbal and communication skills.																																																							
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th>e</th><th></th></tr><tr><td>1. Design Research</td><td>30%</td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>2. Individual Project</td><td>60%</td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>3. Participation</td><td>10%</td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Total</td><td>100%</td><td colspan="6"></td></tr></table> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: For ILO a & b, student’s comprehension and interpretation of both the target customer and the industry general trend will be assessed via a design research report. For ILO c, d, & e, students’ ability to produce marketable products requested by a specific industry partner will be assessed via an individual project. Also, for ILO e, students’ professionalism including communication skills and punctuality will be assessed via presentations and participation.
