

Subject Description Form

Subject Code	ITC4057I
Subject Title	Expert Seminar
Credit Value	1 credit
Level	4
Pre-requisite/ <Co-requisite> / (Exclusion)	Nil
Objectives	The role of this subject is to provide students first-hand information of the real-life industrial experience in Intimate Apparel Industry through a series of experts' seminars. Students are requested to submit knowledge-building worksheet after each seminar which can articulate individual interpretation on that seminar. Students also need to submit an individual reflective journal related to one of the topic of the experts' seminars. Work-based problems, modified essay questions and real-life problem scenarios are some of the assessment methods used to strengthen students' problem-solving techniques, critical thinking and analytical skills to be applied in the industry.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: - integrate relevant academic knowledge and real-life experience to analyse and interpret the key issues occurring in the intimate apparel industry. - apply critical and analytical skills to formulate and present in a professional manner, optimal solutions for the problems arising from intimate apparel design, development, manufacturing and the day-to day operation. - articulate and critically evaluate their analytical and problem-solving skills and their own learning process in professionally preparing and presenting knowledge-building worksheets and reflective journals which represent their interpretation of the contents of expert seminars.
Subject Synopsis/ Indicative Syllabus	(I) Introduction Aims and Objectives of the Experts' seminar Assessment methods: Knowledge building worksheet and Reflective Journal (II) Seminar One - Business Topic related to "Intimate Apparel Business" (III) Seminar Two - Technical Topic related to "Intimate Apparel Construction and Fitting" (IV) Seminar Three - Design Topic related to "Creative Design for Intimate Apparel" (V) Seminar Four - Innovations Topic related to "Innovations / New Technologies Applied in Intimate Apparel"

	(VI) Seminar Five – Sales and Marketing Topic related to “Intimate Apparel Sales and Marketing”							
	(VII) Individual Presentation							
Teaching/Learning Methodology	A brief introduction includes the aims, objectives and assessment methods will be described to the students in the first lesson. Then, a series of experts’ seminars in different areas will be arranged to share their real-life industrial experience in Intimate Apparel Industry. Students are requested to submit knowledge-building worksheet after each seminar which can articulate individual interpretation on that seminar. Students also need to submit an individual reflective journal related to one of the topic of the experts’ seminars and give an individual presentation on the last lesson.							
Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)					
			a	b	c			
	1. Knowledge-Building Worksheet	75%						
	2. Individual Reflective Journal	25%						
	Total	100%						
	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Students need to complete one knowledge building worksheet after each lesson of expert seminar and an individual reflective journal at the end of this subject. They have to collect the ideas from the speaker, connect the ideas in a diagram and create something new based on the information provided by the speaker. This worksheet can be used to assess whether the student can integrate relevant academic knowledge and real-life experience to analyse and interpret the key issues occurring in the intimate apparel industry. Also, the assignments can be used to evaluate students’ critical thinking, analytical skills and problem-solving skills.
