

Subject Description Form

Subject Code	ITC4059D
Subject Title	Fashion Portfolio
Credit Value	3
Level	4
Pre-requisite/ Co-requisite/ Exclusion	ITC3012D Fashion Illustration (ITC4067K Knitwear Portfolio Development) Exclusion: SFT408FD Portfolio Development
Objectives	The subject assists students to plan and design a fashion portfolio which showcases their skills, knowledge and creativity and supports their transition to further study or employment.
Intended Learning Outcomes (Note 1)	Upon completion of the subject, students will be able to: a. organise and plan a professional portfolio to showcase skills and knowledge acquired in their studies; b. demonstrate personal professionalism, creativity and mastery of design principles; c. implement high standards of presentation skills to effectively communicate with the intended audience; d. develop critical and creative thinking; e. develop efficient time management skills for portfolio development.
Subject Synopsis/ Indicative Syllabus (Note 2)	(I) Components of a Fashion Portfolio Key features like concepts, research, development, figure drawings and illustrations in the process of portfolio development. (II) Presentation Styles Demonstration of portfolio design with strong personal signature with professional presentation. Consideration of traditional and digital formats of presentation. (III) Technical Aspects Technical drawing, fibre contents and technical terms of the fashion items in the portfolio.
Teaching/Learning Methodology (Note 3)	Studio/tutorial and group sharing will be the main methods used for teaching. Peer learning, problem solving skills and time management skills will be developed during the tutorial and group discussion sessions. Individual presentation will be employed as the assessment tool for evaluation of students' critical thinking, creativity, professionalism and communication skills.

(Note 4)

		a	b	c	d	e	
Continuous Assessment	100%	✓	✓	✓	✓	✓	
1. Assignments	30%	✓	✓	✓	✓	✓	
2. Portfolio presentation	70%	✓	✓	✓	✓	✓	
Examination	0%						
Total	100 %						

Presenting a professional portfolio will be the main objective of this subject. Continuous assessment will be important for students to demonstrate their progress, creative thinking, problem solving skills and time management during the whole process. The guidance from the tutor will further improve the quality of the portfolio.

The materials submitted for all assessments must be the student's own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. However, students could utilise various media and technologies such as GenAI to assist with design research in the preliminary stage. They are required to declare the use of GenAI in their work if applicable. Submitting GenAI-generated materials as students' own work or part of their work without declaration is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
