

Subject Description Form

Subject Code	ITC4085E
Subject Title	Omni-Channel Fashion Marketing and Retailing
Credit Value	3 credits
Level	4
Pre-requisite/ <Co-requisite> / (Exclusion)	Nil
Objectives	Omni-channel strategy is an emerging retail strategy that integrates brick-and-mortar store, social media, mobile commerce and catalogue to create new value and shopping experience to connected customers. From fast fashion to luxury fashion retailers, all brands are looking for creative approaches to improve revenue, brand recognition and customer loyalty through the omni-channel strategy. This subject will provide students theoretical and practical perspectives of omni-channel fashion retailing and marketing, and the student will be able to formulate the omni-channel strategy and planning for a fashion brand. This subject also explores to the latest technologies in developing the mobile and social media applications and how to integrate them with the services in brick-and-mortar store.
Intended Learning Outcomes	On successfully completing this subject, students will be able to: - create customer demand in the omni-channel retail environment - source the right technologies for omni-channel implementation - formulate a sustainable implementation strategy for omni-channel retailing and marketing - develop basic omni-channel solution for fashion business
Subject Synopsis/ Indicative Syllabus	Overview - From multi-channel to omni-channel retailing - The rise of social commerce and marketing and their integration with brick-and-mortar shops - Cutting edge technology applications in omni-channel retailing Retail and Marketing Management Focus - Case studies of best practices of mobile and social commerce retailing - Omni-channel merchandising and planning - Logistics management in omni-channel retailing - Creative approaches to explore new customer value and experience Technology Management Focus

	8. Design, development, and implementation of mobile and social media applications for omni-channel fashion retailing and marketing 9. Big data analysis of consumer behaviour in mobile and social media channels																																																					
Teaching/Learning Methodology	The fundamental concepts of omni-channel retailing, business cases, and best practices in the industry will be delivered in lectures. Tutorials will be conducted in classroom and computer lab to experience and design and develop mobile applications that fits for fashion and luxury retailers. There are guest speakers on specific topics and on the trend of omni-channel retailing in fashion industry. A flipped classroom approach will be used in some lectures, to show case how mobile technologies can be used for customer interactions.																																																					
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th></th><th></th></tr><tr><td>Coursework</td><td>100</td><td>/</td><td>/</td><td>/</td><td>/</td><td></td><td></td></tr><tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Total</td><td>100 %</td><td colspan="6"></td></tr></table> The students’ understanding and development in study can be assessed by their individual assignments and group project. 1.
