

Subject Description Form

Subject Code	ITC443PC
Subject Title	Capstone Project II
Credit Value	5
Level	4
Pre-requisite/ <Co-requisite>/ (Exclusion)	ITC321PC Capstone Project and Dissertation Preparation
Objectives	This is a research-based, process-oriented and production-based course. It is a self-managed project for students studying in BSc (Hons) Digital Fashion programme. It provides students with a platform to demonstrate their ability to integrate computing and creative knowledge they have acquired in other preceding and concurrent courses of study and the application of good team building, management, communication, and presentation skills. Students are required to present their Research & Development Outcomes and Interim Report; Prototype Outcomes & Final Report.
Intended Learning Outcomes (Note 1)	Upon completion of the subject, students will be able to: a. apply knowledge and skills learnt through preceding coursework, experience and other concurrent courses, and to synthesize and communicate ideas in the form of substantial pre-production and prototyping of a creative media project, either individually or as a member of a team, in a chosen area of creative media or digital entertainment; b. exercise good management methods in the planning, researching, designing, feasibility studying, developing, prototyping and monitoring of progress; c. prepare proposals, analyse needs, perform research, design, perform experiment and feasibility study, implement feasible solutions, and deliver their projects on time and on target; d. develop market strategies and materials for new digital product collection release; e. better understand the creative process, and the needs and means to balance creative flexibilities and developmental disciplines; and f. be proficient and effective in communicating their works to others including potential clients.

Subject Synopsis/ Indicative Syllabus (Note 2)	Students will work in groups on a selected topic, and a supervisor will be assigned to supervise the team to create a product line for a ‘new’ company of the students in their selected market. (I) Target market analysis Prepare research folio Opportunities investigation Define niche market for a new product line Situation and SWOT analysis (II) Project planning Defining a topic Materials sourcing Budget plan estimation Build a buying / assortment plan (III) Develop marketing plan Goals / objectives Marketing strategies (long / short term) Marketing action plan (IV) Product development Concept mapping Technical specification pack Execute production plan Timeline checking Post-production and evaluation (V) Media promotion planning Target audience research Select appropriate promotion media Advertising creation Press release preparation (VI) Post-production and evaluation Media convergence Data collection and analytics Evaluation and contingency plan (VII) Project presentation & Reflective journal Communicate clearly and effectively in a professional manner Capstone project online archive
Teaching/Learning Methodology (Note 3)	Regular individual/ group consultations will be held between students and the assigned supervisors. As part of the monitoring system, progress reports have to be submitted.

Assessment Methods in Alignment with Intended Learning Outcomes <i>(Note 4)</i>	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed					
			a	b	c	d	e	f
	1. Capstone Project - Project Proposal - Work plan & Process records - Final work - Capstone archive - Public engagement (online measurements)	5% 20% 30% 5% 25%	✓	✓	✓	✓	✓	✓
	2. Presentations	15%						✓
	Total	100 %						
Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Capstone project offer ample opportunities for students to deepen their understanding of the whole capstone project development process as well as hands-on experience in problem solving and the real-life industrial practice in product development. Students will present their findings and solutions to different problems or different scenarios in the assigned projects. “The materials submitted for this assessment must be the student’s own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students’ own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.”								
Student Study Effort Expected	Class contact:							
	▪ Tutorial				4 Hrs			
	Other student study effort:							
	▪ Self-study/Preparation				152 Hrs.			
	▪ Regular meetings/ group consultations				30 Hrs.			
	▪ Presentation				10 Hrs.			
	Total student study effort				196 Hrs.
