

Subject Description Form

Subject Code	ITC446XE
Subject Title	Mobile App Design for Fashion
Credit Value	3
Level	4
Pre-requisite/ <Co-requisite>/ (Exclusion)	ITC212MC Photography and Digital Presentations or ITC329XE UX Design for Fashion
Objectives	Fashion retailers and brands have invested heavily into developing mobile applications for their business improvements and innovations. Students will be exposed to various mobile business applications in various business sectors. They will also learn the knowledge and skills for analysis, design, and operation of mobile business applications for business improvements and innovations.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a. Explain the mobile business eco-systems and mobile platforms for business improvements and innovations; b. Design business models and strategies for mobile applications for fashion applications; c. Design mobile applications for business innovations with features like location-based services and/or profile-based recommendation services; d. Innovate new ideas or business models using mobile technology for the cases/projects of selected fashion firms; and e. Plan, organise and deliver effective oral presentations on project work.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	(I) Mobile Apps and App Development Environment (II) Mobile Retailing in Fashion (III) Navigation and Interface Design (IV) Mobile App Management and Publishing Apps (V) Mobile Payments (VI) Mobile 2.0
Teaching/Learning Methodology <i>(Note 3)</i>	Lecture discussion and tutorials will underpin students' understanding of the subject contents. Instrumental cases will be adopted to illustrate the usability of the principles in today's global fashion business. Apart from lecturing, coursework including assignments, online quizzes and group project will also be key parts of the knowledge learning.

Assessment Methods in Alignment with Intended Learning Outcomes <i>(Note 4)</i>	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed				
			a	b	c	d	e
	1. Assignments and participations	20%	✓	✓	✓		
	2. Quizzes	15%	✓	✓	✓		
	3. Projects	25%	✓	✓	✓	✓	✓
	4. Examination	40%	✓	✓	✓	✓	
	Total	100 %					
Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: 20% is given for student's assignments and participation in terms of quality of questions, answers and student engagement in both lectures and tutorials Online quizzes will be provided to assess students' understanding on subject matters. All quizzes are open book. There are either multiple choice questions and/or short questions. Students are advised NOT to click on quizzes link until you are ready to take the quiz. There is no retakes, you can only take the quiz once. The subject has a group project, which requires the students to develop a social media enabled strategy and marketing plan to promote a fashion brand. The project requires a project proposal and presentation as well. A final 2-hour exam will be closed book examination. "The materials submitted for this assessment must be the student's own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students' own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions."							
Student Study Effort Expected	Class contact:						
	▪ Lecture						26 Hrs.
	▪ Tutorial						12 Hrs.
	Other student study effort:						
	▪ Self-study/Preparation						46 Hrs.
	▪ Project/Assignments						24 Hrs.
	Total student study effort						108 Hrs.
