| <b>Pre-requisite/ Co-requisite/ Exclusion</b> | Pre-requisite: Background knowledge in fashion and textile design                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Objectives</b>                             | The subject prepares the research postgraduate students towards the acquisition of intellectual autonomy, improved judgment making and enhanced technical competence in the entire practical based research process; and be able to apply and adopt such skill into their own practices to produce assessable documentation and aesthetic prototypes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Intended Learning Outcomes</b>             | <p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"> <li>understand practice related research in Art and Design;</li> <li>articulate clearly the relationship between the research role and the practitioner role;</li> <li>bridge practical concept development and physical prototyping in creating high value fashion and textile design;</li> <li>conduct design orientated methodological planning namely, practice-led and practice-based research methodology in the domain of fashion and textile design research studies;</li> <li>evaluate the design and development process and initial prototypes according to the aesthetical and technological characteristics;</li> <li>finalize detail design with specifications by combining artistic creativity, scientific rationales and principles, as well as engineering technical-know-how to design and develop high quality fashion prototypes/artifacts.</li> </ol> |
| <b>Subject Synopsis/ Indicative Syllabus</b>  | <p>This subject aims to provide students with theoretical and professional knowledge in advanced practice related to research in the fashion and textile domain. The syllabus is divided into the following 3 main parts:</p> <p>Week 1-2</p> <p><u>Part 1: Exploration and analysis phase on design orientated research direction</u></p> <ul style="list-style-type: none"> <li>- Analysis of the research problems</li> <li>- Problem recognition through</li> <li>- Methodological planning to contain innovative insights into practice</li> </ul> <p>Week 3-13</p> <p><u>Part 2: Ideation and synthesis development</u></p> <ul style="list-style-type: none"> <li>- Development of theoretical framework through conceptualization process</li> <li>- Creation of individual solutions</li> <li>- Creativity techniques to combine sub-solutions into alternative designs</li> <li>- Development of initial prototypes</li> </ul>                                        |

|                                                                        | <b><u>Part 3: Evaluation phase to develop detail design with specification model</u></b> <ul style="list-style-type: none"> <li>- Evaluation of prototyping</li> <li>- Documentation of design processes and specifications that extend the depth and breadth of referential contexts</li> <li>- Refinement to achieve final quality prototypes in the fashion and textile industry</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                |   |   |   |          |   |                                   |             |                                                                                |  |  |  |  |  |   |   |   |   |   |   |               |     |   |   |   |  |  |  |                |     |  |  |  |   |   |   |       |      |  |  |  |  |  |  |

| <b>Teaching/Learning Methodology</b>                                   | This subject comprises tutorials, assignments and presentations. Tutorials / individual guidance (due to specialized research areas) and seminars are arranged to foster and deepen students' knowledge and skills of the research subject. Project assignments are employed as assessment tools to assess the learning outcomes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                |   |   |   |          |   |                                   |             |                                                                                |  |  |  |  |  |   |   |   |   |   |   |               |     |   |   |   |  |  |  |                |     |  |  |  |   |   |   |       |      |  |  |  |  |  |  |
