	Class preparation and participation: Students are required to study the teaching materials and videos before class. The class participation component encourages students to provide active feedback on the subject materials taught each week. This comprises attendance, pre-class quizzes and in-class quizzes. Group project: Students in a group are required to work on a project or case study on a topic related to the course and give a presentation of the work in class. Individual assignment: Each student will submit an analytical writing report on a topic related to the course. Final examination: The final examination is a two-hour examination which comprises cases/problems relating to all the learning outcomes.	
Student Study Effort Expected	Class contact:	
	Lectures	39 Hrs.
	Other student study efforts:	
	Pre-class Preparation and Assignments	67 Hrs.
	Total student study effort	106 Hrs.
