Subject Code	SFT419E
Subject Title	Creative High Fashion Project
Credit Value	3
Level	4
Pre-requisite/ Co-requisite/ Exclusion	Co-requisite: SFT416CP Capstone Project by Thesis Collection
Objectives	The subject aims to further nurture and groom “Elite Student Groups” to participate in various local / international design competitions, and international fashion events. The subject identifies and adopts professional design process methods employed by the high fashion industry to create a coherent design portfolio and modern high fashion collections to industry standard.
Intended Learning Outcomes	Upon completion of the subject, students will be able to: (a) recognise specific design process methods in developing modern high fashion collections; (b) recognise key embellishment techniques and advanced fitting techniques for high fashion; (c) recognise inspiration from various sources and create a coherent concept journal for high fashion; (d) develop and implement skills and techniques of visualising and presenting high fashion collections in 2 and 3 dimensional formats effectively; and; (e) effectively communicate with design professionals and function professionally in the context of high fashion industry.
Subject Synopsis/ Indicative Syllabus	(I) Understanding of High Fashion History of high fashion and creative design approaches of contemporary high fashion designers. (II) Design Development of <u>High Fashion Collection</u> Transformation of inspiration into a concept journal for modern high fashion. (III) Professional Techniques in Fashion Visualisation Specific techniques of design drawings and technical drawings for high fashion in 2-dimensional format. (IV) Professional Techniques in Garment Prototyping Techniques of draping, patternmaking, understructure, and advanced fitting for prototyping high fashion garments in 3-dimensional format.

Teaching/Learning Methodology	Dissemination of knowledge through lectures and practice in a studio environment will be employed. This interactive approach will offer better opportunities for students to deepen their understanding of the concepts taught as well as hands-on experience in problem solving. Students will visualise and present fashion concepts for high fashion garments both in 2-dimensional and 3-dimensional formats in assigned project work through the student-centered projects.
