

The Hong Kong Polytechnic University

Subject Description Form

Please read the notes at the end of the table carefully before completing the form.

Subject Code	SFT502
Subject Title	Contemporary Issues in International Fashion Business
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	The subject aims to provide students with an overview of the contemporary issues in the increasingly complex global fashion market environment. Students will acquire the knowledges and skills required for identifying key trends in the development of the fashion industry. Contemporary issues in the fashion industry include but not limited to changes of consumer demographics and lifestyles, street fashion and culture, luxury business and lifestyle, digitalization of fashion, innovation, and sustainable fashion. It helps build-up students' awareness towards the challenges and opportunities in the global fashion market and identify key success factors in managing fashion business.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a) Summarize the recent macro-environmental changes and their effects on international fashion companies; b) Evaluate the socio-cultural, economic and technological developments for translation into feasible business opportunities; c) Evaluate the opportunities and threats under different international institutions, trade and business environments; and d) Appraise ethical issues and propose corporate social responsibilities for international business development.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	1. <u>Innovation in Fashion and Textile Design</u> Emerging fashion designers and global trend; cultural appreciation of ethnic clothing and costumes; innovative design methods and techniques; material innovation for fashion design

	2. <u>Trends in International Fashion Business</u> Changing consumer demographics and priorities, emerging fashion markets and business trends; disruptive innovation in fashion; innovative business strategies and entrepreneurship; luxury business and lifestyle; digital transformation of fashion business; sustainable issues in fashion business 3. <u>Rethinking Fashion and Society</u> Fashion as a sociological concept; feminism and fashion movement; activism in fashion industry; trends in body aesthetic and fashion; fashion subculture; inclusivity and diversity in fashion business, digital representation of fashion. 4. <u>New Technologies and Innovation</u> Smart textiles development; product innovation and development; artificial intelligence technologies in garment production; digital and blockchain technologies in business operations and analytics.																																		
Teaching/Learning Methodology (Note 3)	This subject will employ a variety of learning and teaching methods including lectures, seminars, case studies discussion, tutorials and group discussions. The subject will be organized to different topics. Each topic will be delivered by different academics or industry expert in the field. The subject will utilize methods of learning, teaching and assessment such as group discussions, presentations, and report writing. Students will have the opportunity to hear from external academic and professional speakers from the fashion industry.																																		
Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="4">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th></tr><tr><td>1. Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
