

The Hong Kong Polytechnic University

Subject Description Form

Please read the notes at the end of the table carefully before completing the form.

Subject Code	SFT506
Subject Title	Digital Disruption and Fashion Innovation Management
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	This subject provides students with a comprehensive understanding of digital disruption and its managerial implications to business innovation and transformation. The class will focus on the challenges and the best digital practices associated with a successful transformation of a fashion business for business survival and competition. The subject will introduce various kinds of digital tools, concepts, and perspectives in fashion design, production and supply chain, operations process, and business models. The subject will enable students to develop a strategic response to the new digital and innovation in the fashion industry. It will support students to become more proactive in the digital domain. With practical examples in the fashion industry, students can reflect on the wide digital applications for business transformation and management, creating competitive advantages and enhanced performance for fashion business.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a) Recognize digital disruption and identify key success factors determining digital transformation of the value chain, patterns of demand, and competitive pressures that impact the fashion industry; b) Evaluate the best digital and business transformation practices exist across leading fashion companies and to highlight how these digital practices are contextualized in their fashion organizational setting; c) Devise and execute digital strategies that develop compelling value propositions and ensure long-term business success.

Subject Synopsis/ Indicative Syllabus (Note 2)	1. <u>Digital Disruption in the Global Fashion World</u> Technological innovation in global fashion business; waves of digital disruption; impacts and opportunities of digital disruption on societies and global economies. 2. <u>Understanding Disruptive Technologies and Strategies</u> Definition and types of disruption in fashion business; emerging disruptive technologies and digital strategies; understanding how digitization creates new formats, and disrupts existing business models; introduction of automation, robotics, and AI in fashion industry 3. <u>Platform-based Competition</u> Defining platforms; types of platforms; platform dilemmas and strategies; platform providers and pricing; winner-take-all dynamics; platform envelopment; platform disruption from AI and blockchain technologies. 4. <u>Developing Business Innovation Model</u> Concepts of business model innovation; levers of business model innovation (technology, management, organizational forms, and co-creation); ideal type of business model (product, solution, matchmaking, multi-sided); business model thinking. 5. <u>Global Challenges in Digital Disruption</u> Privacy protection in a digital era, legal issues of digital disruption; digital media and its impact on democratic process; vulnerabilities of digital networks and legal frameworks relating to computer misuse and internet fraud.
Teaching/Learning Methodology (Note 3)	This subject will employ a variety of learning and teaching methods including lectures, seminars, tutorials and group discussions. The subject will utilize methods of learning, teaching and assessment such as group discussions, presentations, and report writing. Students will have the opportunity to hear from external academic and professional speakers from the fashion industry.

Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)		
			a	b	c
	1. Coursework				
	- Individual Report	40%	✓	✓	✓
	- Group Project	60%	✓	✓	✓
	Total	100 %			
	Continuous assessments with group and individual projects are designed to allow students the opportunity to demonstrate their theoretical and managerial understanding of digital applications in international fashion business. The group project size will be 4-5 students / group. The materials submitted for these assessments must be the student’s own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students’ own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.				
Student Study Effort Expected	Class contact:				
	▪ Lectures				21 Hrs.
	▪ Seminars				18 Hrs.
	Other student study effort:				
	▪ Assignment				18 Hrs.
	▪ Term paper				32 Hrs.
	▪ Reading				40 Hrs
	Total student study effort				129 Hrs.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
