

The Hong Kong Polytechnic University

Subject Description Form

Please read the notes at the end of the table carefully before completing the form.

Subject Code	SFT510
Subject Title	Corporate Social Responsibility and Sustainability Management
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	This subject provides students a comprehensive understanding of the theories and practices that underpin corporate social responsibility (CSR) and sustainability management in today's fashion industry. Students will critically evaluate areas including social and environmental challenges to global fashion business, sustainable production and consumption, circular economy; stakeholder management and engagement, business ethics, and strategic management in sustainable business.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a) Demonstrate in depth understanding of the concepts and key theories of corporate social responsibility (CSR) and sustainable management in global fashion industry; b) Critically evaluate and translate core social and environmental issues, policies and standards, and legislation into CSR and sustainable decisions and practices; c) Develop and manage corporate social responsibility and sustainable strategies in organizational setting; d) Demonstrate analytical skills in selecting appropriate tools and techniques to monitor and measure positive impact to society and environment.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	1. <u>Fundamentals of CSR and Fashion Sustainability</u> Definitions and historical development of CSR and sustainability management; CSR as part of corporate strategy; theoretical approaches to CSR and sustainable fashion; sustainability management and social responsibility in the value chain; corporate social responsibility in the fashion world.

	2. <u>CSR and Sustainable Fashion in Practice</u> CSR and sustainable strategies; environmental auditing for supporting and improving sustainable solutions (i.e., ISO14001 and 5001); CSR in procurement; CSR in operations management; CSR in marketing management; CSR and ethical management; CSR and environmental, social governance (ESG); managing and implementing corporate social responsibility, 3. <u>Managerial Considerations behind CSR and Sustainability Investment</u> Principles of economic analysis; problems and limitations of corporate sustainable development; evaluation of alternative types of environmental policy instruments; Socio-economic management tools; environmental awareness and engagement campaigns. 4. <u>Corporate, Environment, and the Society</u> Concepts and applications of Create Shared Values; the state and civil society; stakeholders theory - shareholder, consumers, suppliers, employees, and competitors 5. <u>Sustainability in Global Fashion Companies</u> Future of CSR and sustainable management; organizational development strategies; growing influence of the sustainability agenda on industry; current and future challenges.
Teaching/Learning Methodology <i>(Note 3)</i>	This subject will adopt a variety of learning and teaching methods including lectures, seminars, tutorials and group discussions. The subject will utilize methods of learning, teaching and assessment such as group discussions, presentations, and participative experiential class exercises. Students will have the opportunity to learn from external academic and professional speakers from the fashion industry on the latest development of CSR and sustainability management practices.

Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)			
			a	b	c	d
	1. Coursework					
	- Individual Term Paper	30%	✓	✓		✓
	- Group Project	50%	✓	✓	✓	✓

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
