	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:							
	<u>Participation 10%</u>							
	Participation includes class discussions, shared discoveries, class critiques and feedback, presentations etc. Interaction in an online platform is important for engagement and sharing ideas to motivate and inspire each other.							
	<u>Exercises 20%</u>							
	Exercises are given to learn and practice new tools, processes and techniques, to gain a level of confidence to explore creatively. Assessment of weekly exercises and assignments will help to improve the student’s level of proficiency in the given medium.							
	<u>Weekly Assignments 30%</u>							
	Weekly assignments allow the students to learn new skills and to get constructive feedback to develop proficiency.							
	<u>Design Projects 40%</u>							
	Design projects allow the students to explore and stretch their creativity to synthesize and contextualize the different skills they have learned into a creative and unique project.							
Student Study Effort Expected	Class contact:							
	▪ Presentations and Demos						26 Hrs.	

	▪ Discussions and Critiques	13 Hrs.
	Other student study effort:	
	▪ Exercises	19.5 Hrs.
	▪ Self-study/ Completing Assignments	46.5 Hrs.
	Total student study effort	105 Hrs.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
