

The Hong Kong Polytechnic University

Subject Description Form

Please read the notes at the end of the table carefully before completing the form.

Subject Code	SFT518
Subject Title	Fashion Presentation and Communication
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	Nil
Objectives	This subject has the following objectives: 1. How to develop a unique and strategic professional positioning - conceptually, visually and verbally. 2. Understand how to present an individualized vision using authentic and vivid fashion storytelling. 3. Crafting brand identity using multi-media presentations.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a) Present design concepts using impactful fashion communication and presentation tools and techniques. b) Demonstrate the ability to develop personal branding that showcases creativity and imagination. c) Curate aesthetic imagery in diverse formats and emotionally connect with an audience using various media, platforms and techniques. d) Communicate a creative vision and messaging that builds a memorable and unique professional presence.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	In this course students will acquire the skills to craft visually captivating presentations and master impactful verbal and visual communication strategies. They will learn to express their fashion vision with confidence and clarity, employing various storytelling techniques, multimedia presentation tools, and communication platforms. Topics covered in the lectures could include: 1. Visual Communication and Creative Vision

	a. The value of visual communication b. The intersection of aesthetics and ideas c. Speaking visually 2. Personal Positioning: a. Fashion Tribe b. Market positioning c. Competitive Analysis 3. Fashion Presentation: a. Portfolio Concept & Structure b. Personal Brand Identity c. Choosing the right presentation medium and platforms 4. The art of storytelling a. Visual curation b. Crafting compelling fashion stories c. How to emotionally connect with the audience 5. Social media presence and digital presentation a. Growing a digital presence b. Digital communication basics c. Strategic messaging Video demos include: • Effective use of analogue tools and techniques in a presentation • Digital sketching in Procreate, Adobe Photoshop and Illustrator • Effective layout techniques using Adobe InDesign
Teaching/Learning Methodology (Note 3)	This online course consists of lectures that provide key knowledge delivery in theory, concepts and process. Video demonstrations provide a step-by-step guide to technical skills with exercises for students to practise and perfect the skills. Faculty-moderated discussions and critique provide a group learning environment for students to share, learn and be inspired by each other. Weekly assignments and design projects are assessed to provide individualised feedback by the faculty.

(Note 4)

Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:

Participation 10%

Participation includes class discussions, shared discoveries, class critiques and feedback, presentations etc. Interaction in an online platform is important for engagement and sharing ideas to motivate and inspire each other.

Exercises 20%

Exercises are given to learn and practice new tools, processes and techniques, to gain a level of confidence to explore creatively. Assessment of weekly exercises and assignments will help to improve the student's level of proficiency in the given medium.

The materials submitted for this assessment must be the student's own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students' own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.

Weekly Assignments 30%

Weekly assignments allow the students to learn new skills and to get constructive feedback to develop proficiency.

The materials submitted for this assessment must be the student's own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students' own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.

	<u>Design Projects 40%</u> Design projects allow the students to explore and stretch their creativity to synthesize and contextualize the different skills they have learned into a creative and unique project. The materials submitted for this assessment must be the student's own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students' own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.	
Student Study Effort Expected	Class contact:	
	▪ Presentations and Demos	26 Hrs.
	▪ Discussions and Critiques	13 Hrs.
	Other student study effort:	
	▪ Exercises	19.5 Hrs.
	▪ Self-study/ Completing Assignments	46.5 Hrs.
	Total student study effort	105 Hrs.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
