

The Hong Kong Polytechnic University

Subject Description Form

Please read the notes at the end of the table carefully before completing the form.

Subject Code	SFT519
Subject Title	Artisan Design and Production
Credit Value	3
Level	5
Pre-requisite/ Co-requisite/ Exclusion	Co-Requisite: SFT528CP Capstone Project II
Objectives	This subject has the following objectives 1. Provide access to artisan studios and factories. 2. Understanding of small batch production processes. 3. Intensive design studio modules in leather, embellishment and fabric manipulation given by Polimoda faculty.
Intended Learning Outcomes <i>(Note 1)</i>	Upon completion of the subject, students will be able to: a) Understand the operations of Italian artisan studios and factories. b) Learn small batch production processes. c) Practice the art and design of leatherwork, embellishments and fabric manipulation.
Subject Synopsis/ Indicative Syllabus <i>(Note 2)</i>	This course will take place at Polimoda in the summer term as a co-requisite to SFT528CP Capstone Project II. This course provides access to Italian artisan studios and factories, many of which produce for the top luxury brands, to gain an understanding of their operations, small batch production and manufacturing relationships and processes. The field trips will be paired with studio design modules taught by Polimoda faculty providing students instruction and practice in areas of leatherwork, embellishments and fabric manipulation. Those who took the online elective courses in any of these topics will have a chance to deepen their skills and apply them to their capstone projects with the help of in-person faculty.
Teaching/Learning Methodology	This 7-week course will be divided into two-week modules that include field trips to artisan studios/factories and design studio work focusing on the 3 core techniques of Leatherwork, Embellishments

(Note 3)	and Fabric Manipulation. The weekly breakdown: Weeks 1 & 2: Introduction + factory field trip(s) + Design Studio Weeks 3 & 4: + factory field trip(s) + Design Studio Weeks 5 & 6: + factory field trip(s) + Design Studio Week 7: Design Studio – Final Project Factory visits include a tour of the facilities and a presentation on their crafts, operations and manufacturing processes. Students will be able to see artisans working first-hand and learn about sourcing and manufacturing relationships and processes. Studio class modules provide technical instructions and exercises to improve skills and creative exploration.																																														
Assessment Methods in Alignment with Intended Learning Outcomes (Note 4)	<table border="1"> <tr> <th data-bbox="557 699 777 909" rowspan="2">Specific assessment methods/tasks</th><th data-bbox="777 699 920 909" rowspan="2">% weighting</th><th colspan="6" data-bbox="920 699 1398 837">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th></tr> <tr> <th data-bbox="920 837 987 909">a</th><th data-bbox="987 837 1058 909">b</th><th data-bbox="1058 837 1128 909">c</th><th data-bbox="1128 837 1187 909"></th><th data-bbox="1187 837 1245 909"></th><th data-bbox="1245 837 1398 909"></th></tr> <tr> <td data-bbox="557 909 777 1001">1. In addition, new craft techniques will be taught every two weeks via tutorials and demos that could be adapted to the student’s capstone projects. Attendance is also heavily weighted because there is a temptation when students are in a foreign country, to get distracted by sightseeing and skip classes. <u>Weekly Exercises 30%</u> Every two weeks, students are taught a new technique and will be given exercises and assignments to learn, experiment and develop the new skills. Assessment of weekly exercises and assignments will	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)						a	b	c				1. Attendance & Participation	30%	✓	✓	✓				2. Weekly Exercises	30%		✓	✓				3. Course Projects	40%		✓	✓				Total	100 %

	help to improve the student's level of proficiency in each given skill. <u>Course Projects 40%</u> The course projects will help the student explore and stretch their creativity to synthesize and contextualize the different artisan skills they have learned into a creative and unique concept. The exercises could also contribute fresh ideas or techniques to the student's capstone projects.	
Student Study Effort Expected	Class contact:	
	▪ Lecture	21 Hrs.
	▪ Field Trips	20 Hrs.
	Other student study effort:	
	▪ Design Studio	49 Hrs.
	▪ Self-study	15 Hrs.
	Total student study effort	105 Hrs.
Reading List and References	TBD	

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
