| <b>Subject Title</b>                                                | Hand Embroidery                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Credit Value</b>                                                 | 3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Level</b>                                                        | 5                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Pre-requisite/<br/>Co-requisite/<br/>Exclusion</b>               | Nil                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Objectives</b>                                                   | <p>This subject has the following objectives:</p> <ol style="list-style-type: none"><li>1. Provide an overview and introduction to traditional embroidery practice.</li><li>2. To understand traditional embroidery techniques, processes and design applications.</li><li>3. Understand materials and equipment used in traditional hand embroidery.</li><li>4. Understand the relevance and application of traditional techniques in contemporary hand embroidery designs.</li></ol>                                                                    |
| <b>Intended Learning Outcomes</b><br><i>(Note 1)</i>                | <p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"><li>a) Understand the theories and practices involved in traditional hand embroidery.</li><li>b) Have the ability to name hand embroidery materials, equipment, techniques and processes.</li><li>c) Have the ability to design hand embroidery work applying traditional techniques to contemporary concepts.</li><li>d) Understand the processes of rapid embroidery design iterations and production planning to meet industry standards.</li></ol> |
| <b>Subject Synopsis/<br/>Indicative Syllabus</b><br><i>(Note 2)</i> | <p>This course provides an in-depth, industry-standard understanding of traditional hand embroidery including:</p> <ul style="list-style-type: none"><li>● Concepts, processes and terminology.</li><li>● Identifying material qualities, equipment and tools.</li><li>● Design ideation and applications.</li><li>● Hand-finishing techniques and production planning.</li></ul>                                                                                                                                                                         |

Topics covered in the lectures could include:

1. Introduction to the history and concepts of hand embroidery
2. Overview and analysis of traditional hand embroidery
3. Overview of hand embroidery materials and equipment
4. How to design for hand embroidery a) selecting materials b) design concepts c) combining techniques d) technical considerations
5. Design planning & production

Video demos include:

1. Framing up for embroidery (how to set up a slate frame vs how to set up a seat frame)
2. Transferring your design onto your fabric (tracing vs prick and pounce)
3. Goldwork Embroidery
  - a) How to start and finish your thread for Goldwork
  - b) Padding techniques
  - c) Applying Passing thread
  - d) Using Metal Threads
  - e) Applying Pearl Purl
4. Jacobean Crewelwork
  - a) How to start and finish your thread for Crewel work
  - b) Preparing your thread
  - c) Crewelwork stitch sampler
5. Counted Thread Embroidery
  - a. Introduction to counted thread embroidery
  - b. Blackwork embroidery techniques
  - c. Blending Blackwork stitches
  - d. Canvaswork introduction
  - e. Blending Canvaswork stitches
6. Design Planning & Production
  - a. Design scaling & placement
  - b. Scanning/digitising
  - c. Technical Specs

Exercises: The students will complete weekly exercises, assignments as well as finished projects.

Online Discussions and Critiques will allow students to engage in group discussions, sharing research ideas, exercises and assignments as well as finished projects.

|                                                                                           | Assignments include research and development of design concepts, hand embroidery sampling, and construction of finished samples incorporating couture hand embroidery techniques and production specs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                   |              |                                                                                |   |  |  |  |  |   |   |   |   |  |  |                                                                  |     |   |   |  |  |  |  |              |     |   |   |   |  |  |  |                       |     |   |   |   |   |  |  |                    |     |   |   |   |   |  |  |       |       |  |  |  |  |  |  |

| <b>Teaching/Learning Methodology</b><br><i>(Note 3)</i>                                   | <p>This online course consists of lectures that provide key knowledge delivery in theory, concepts and process. Video demonstrations provide a step-by-step guide to technical skills with exercises for students to practise and perfect the skills.</p> <p>Faculty moderated discussions and critiques provide a group learning environment for students to share, learn and be inspired by each other. Weekly assignments and design projects are assessed to provide individualised feedback by the faculty.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                   |              |                                                                                |   |  |  |  |  |   |   |   |   |  |  |                                                                  |     |   |   |  |  |  |  |              |     |   |   |   |  |  |  |                       |     |   |   |   |   |  |  |                    |     |   |   |   |   |  |  |       |       |  |  |  |  |  |  |

**Note 1: Intended Learning Outcomes**

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

**Note 2: Subject Synopsis/Indicative Syllabus**

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

**Note 3: Teaching/Learning Methodology**

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

**Note 4: Assessment Method**

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
