| <b>Pre-requisite/<br/>Co-requisite/<br/>Exclusion</b>               | Pre-requisite: SFT515 Historical Research Methodologies                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Objectives</b>                                                   | <p>This subject has the following objectives:</p> <ol style="list-style-type: none"> <li>1. Commence capstone project design exploration and collection planning.</li> <li>2. Develop samples, select and purchase fabrics and complete patterns and muslins.</li> <li>3. Complete preparations for Capstone Project II.</li> </ol>                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Intended Learning Outcomes</b><br><i>(Note 1)</i>                | <p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"> <li>a) Develop disciplined creative and technical studio practice.</li> <li>b) Develop capstone project samples using creative, exploratory, iterative and documentation processes.</li> <li>c) Complete patterns, garment muslins and construction planning.</li> <li>d) Procure materials (fabric, trims, notions etc.) and commence handwork portions of the collection.</li> </ol>                                                                                                                                                                                                               |
| <b>Subject Synopsis/<br/>Indicative Syllabus</b><br><i>(Note 2)</i> | <p>In this course, students use the capstone proposal approved in SFT515 Historical Research Methodologies to begin the process and development stages of their final collection, focusing on experimentation and collection planning. Students will work on sample iterations and explorations, complete patterns &amp; muslins, procure all final materials and start handwork.</p> <p>Topics include:</p> <ul style="list-style-type: none"> <li>• Capstone concept to reality – getting started</li> <li>• Exploration and iteration</li> <li>• Process documentation</li> <li>• Material selection</li> <li>• Patternmaking and muslins</li> <li>• Craftsmanship and Production planning</li> </ul> |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |             |                                                                                |   |   |   |  |  |

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon subject completion. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time, overcrowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method is intended to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
