

Subject Description Form

Subject Code	SFT6987
Subject Title	Guided Study in Fashion Retailing and Marketing Research
Credit Value	3
Level	6
Pre-requisite / Co-requisite / Exclusion	Nil
Objectives	This subject aims to identify key literature gaps and theories in fashion retailing and marketing discipline and to develop new research ideas. Specifically, the objectives are: a. To explore retailing and marketing literature related to the fashion discipline, in order to identify important research gaps and propose new research objectives and/or questions that warrant research b. To identify relevant theories for addressing the proposed research objectives/questions and for developing research model and hypotheses c. To identify and propose research methods that fit for analysing the formulated research model and hypotheses
Intended Learning Outcomes	Upon completion of the subject, students will be able to: a. Identify key literature gaps and propose research questions to address modern retail and marketing issues b. Grow into independent and life-long researchers by applying relevant consumer behaviour and marketing theories for addressing the formulated research questions and hypotheses c. Develop creative and innovative problem-solving skills by identifying and employing research methods that fit for solving the formulated research questions and hypotheses d. Make significant theoretical and practical contributions by conducting quality research in the fashion retailing and marketing disciplines.

Subject Synopsis/ Indicative Syllabus	a. <u>Conduct literature review in the fashion retailing and marketing discipline</u> - To understand the topic of your research interest - To have a summary of what has been explored versus what has yet not been explored in the literature about your topic - To identify the important gaps in the literature - To formulate research questions that need further research b. <u>Identify key theories that are applicable in fashion retailing and marketing research</u> - To understand the definitions of theories and theoretical frameworks - To identify theories from the marketing, retailing, and advertising literatures that can be applied to addressing the proposed research questions c. <u>Develop research model and research hypotheses based on the theories</u> - To apply the theory into developing students’ own research model and research hypotheses d. <u>Propose methodological approaches for addressing the research hypotheses</u> - To identify and propose the methodological approach that fits for addressing the formulated research hypotheses																																						
Teaching/Learning Methodology	Students are required to attend tutorials and seminars, read assigned journal readings, and submit a written report on an assigned research topic.																																						
Assessment Methods in Alignment with Intended Learning Outcomes	<table><tr><th rowspan="2">Specific assessment methods/tasks</th><th rowspan="2">% weighting</th><th colspan="6">Intended subject learning outcomes to be assessed</th></tr><tr><th>a</th><th>b</th><th>c</th><th>d</th><th></th><th></th></tr><tr><td>1. Assignment</td><td>40%</td><td>✓</td><td>✓</td><td>✓</td><td>✓</td><td></td><td></td></tr><tr><td>2. Examination</td><td>60%</td><td>✓</td><td>✓</td><td>✓</td><td></td><td></td><td></td></tr><tr><td>Total</td><td>100%</td><td colspan="6"></td></tr></table> Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Assignments, which include home-works and/or an individual report, are used to assess students’ overall learning outcomes. A final examination is designed to assess the intended outcomes from a to c. The materials submitted for this assessment must be the student’s own work. The submitted work may not be accepted for the purpose of assessment if its authenticity is questionable. Submitting GenAI-generated materials as students’ own work or part of their work is an act of academic dishonesty. Students who are found committing academic dishonesty will face disciplinary actions.	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed						a	b	c	d			1. Student Study Effort Expected	Class contact:	
	▪ Tutorials	6 Hrs.
	▪ Seminars	20 Hrs.
	Other student study effort:	
	▪ Self-reading	47 Hrs.
	▪ Preparing assignment and report	60 Hrs.
	Total student study effort	133 Hrs.
